"(4) If the written instrument is or purports to be provided to an individual by a vaccine provider documenting that an individual has been vaccinated, which bears a government logo or other indication that the written instrument is created by a governmental instrumentality and includes information such as the date an individual received a vaccination and the type of vaccine and lot number, forgery is classified and punished as follows:

a. A first offense by an individual involving a single written instrument under paragraph (b)(4) of this section is forgery in the third degree, a class A misdemeanor.

b. All other forgery under paragraph (b)(4) of this section is forgery in the second degree, a class G felony."

SYNOPSIS

This Amendment makes forgery of a vaccination document a class A misdemeanor if it is a first offense by an individual involving a single written instrument.

This Act requires a greater than majority vote for passage because § 28 of Article IV of the Delaware Constitution requires the affirmative vote of two-thirds of the members elected to each house of the General Assembly to give jurisdiction to inferior courts.
