ESTABLISHMENT OF A COMMUNITY COLLEGE INFRASTRUCTURE FUND.

1 WHEREAS, Delaware's Community College System, operated by Delaware Technical and Community College

3 acres of land across 4 campuses located in each county of the State and the City of Wilmington; and

11 WHEREAS, in addition to deferred maintenance, the College has a critical need to build, renovate, or expand its  
12 academic and student support facilities in each county and the City of Wilmington at a current cost of \$73.2 million so that  
13 it can continue to address Delaware's economic and workforce development needs; and

14 WHEREAS, the College served over 30,500 Delawareans in its academic degree (credit) and workforce  
15 development (non-credit) programs in 2016, of which over 85% stayed and worked in Delaware after graduation and were  
16 hired by over 650 Delaware businesses; and

17 WHEREAS, the College receives students from all 19 Delaware school districts and has transfer agreements to  
18 receive students from 229 4-year schools; and

19 WHEREAS, a recent independent study revealed that the College's students who entered the workforce added  
20 over \$976.4 million to the state economy in 2014, and that every \$1 spent on the College returned \$3.20 in economic  
21 benefit to Delaware; and

WHEREAS, the College is in dire need of a stable and predictable funding source to finance its capital projects and deferred maintenance to ensure its continued contribution to Delaware's economy.

§ 9136. Faith and credit of the College; exemption of bonds from taxation.

The faith and credit of the College is expressly pledged for the full and complete payment of the principal of and interest on any promissory notes or bonds authorized to be issued under this chapter. Bonds to be issued under this chapter are exempt from taxation, with respect to both principal and interest, by the State or any political subdivision of the State for any purpose.

§ 9137. Validity of bonds; incontestability.

When any bonds are sold and delivered under this chapter, the certification by the Board that the bonds have been issued in due compliance with this chapter is conclusive upon the College and every person of the right, power, and authority for the issuance of the bonds, the legality and validity of the bonds, and the principal debt and interest represented by the bonds. After the certification is issued, the legality and validity of the bonds may not be subject to question in any court by the College or by any person for or on its behalf. This section must be made part of the contract and obligation represented by each bond sold and delivered under this chapter.

§ 9138. Procedure governing sale of bonds to State.

The Board shall sell any bonds to be issued under the authority contained in this chapter or under any other provision of law of this State at private sale. The State may require that the validity of the bonds be approved by the Attorney General or the Attorney General's designee. 177               (4) The bonds must be payable in serial installments beginning not more than 1 year after the date of the  
178           bonds and ending not more than 20 years after such date. The amount of any installment payable in any 1 year, except  
179           the last year, must be not less than 1/20 of the aggregate principal amount of the bonds of such issue.

180           § 9140. Designation, numbering, and date of bonds.

181           Any bonds issued under this chapter must be designated by the name of the College and the year in which the

187           § 9142. Signing and sealing bonds.

188           The bonds must be signed by the president of the College, or the chair, and 1 other member of the Board. The

190           section, authorize by special resolution that the signatures of the individuals required to sign the bonds may be engraved or  
191           facsimiles of the signatures printed or otherwise transcribed upon the bonds. If such engraved or facsimile signatures are  
192           authorized and engraved, printed, or otherwise impressed upon the bonds, the signatures have the same effect as written  
193           signatures.

194           § 9143. Temporary bonds.

195           Until bonds in definite form are prepared, the Board may cause temporary bonds with appropriate coupons to be  
196           prepared. Temporary bonds must be executed and signed as provided in §§ 9139 through 9142 of this title. Temporary

213 the signatures of the appropriate officers. The new bond must include a statement in substantially the following form: "This  
214 bond has been reissued to replace a lost, destroyed, or defaced bond."

220 governing the fiscal records to be maintained by the State Treasurer and the College pertaining to bonds of such College.

221 § 9147. Taxing power of Board.

222 The Board's authority to issue bonds is to be construed to be authority to provide funds for the payment of the  
223 interest and annual payments on such bonds, which, without further authority, may be provided for by an additional tax  
224 levy on the property subject to taxation in each county of the State in such amount as the Board determines within the  
225 limitations contained in § 9131 of this title.

SYNOPSIS

Delaware's Community College System, operated by Delaware Technical and Community College ("the College"), plays a critical role in the State's economy by providing workforce development and transfer education that connects Delawareans with good paying jobs within the State and region.

This Act gives the College's Board of Trustees the authority to issue bonds to finance the cost of major and minor capital improvements, deferred maintenance, and the acquisition of related equipment and educational technology and establishes the Community College Infrastructure Fund ("the Fund") to pay the principal and interest on such bonds. This Act adopts the county Vo-Tech structure to finance the Fund by authorizing the College's Board of Trustees to collect a local property tax, subject to a cap. All money raised in a county must be placed in a segregated account and spent exclusively on projects in that county; this eliminates any possibility of applying this Act in an unconstitutional manner.

This Act also makes technical corrections to conform existing law to the standards of the Delaware Legislative Drafting Manual.
