83 FURTHER AMEND House Bill No. 153 on line 437 by deleting “vehicle” and inserting in lieu thereof “~~vehiele~~  
84 vehicle, or a vehicle on which the IID was installed.”.

#### SYNOPSIS

This Amendment makes the following additional technical corrections to Delaware’s driving under the influence laws:

- (1) Corrects the range of blood alcohol concentration to account for fractional blood alcohol concentration results between .19 and . 20.
- (2) Requires completion of requirements under § 4177C rather than compliance with the requirements.
- (3) Clarifies that a person who did not apply for an ignition interlock device (“IID”) license or to participate in the IID program and whose license revocation period under § 4177A(a) of Title 21 has elapsed is to have the person’s license reinstated if the person pays all of the required fees, satisfactorily completes the required course, and does not operate a vehicle during the revocation period.
- (4) Makes language related to the first offenders election consistent.
- (5) Clarifies that a person who applies for an IID license is required to install the IID on each vehicle the person will, or does, operate during the revocation period whether or not the vehicle is owned by the person.
- (6) Includes references to illicit or recreational drug content, where appropriate.
- (7) Makes additional, minor technical corrections to the Act.
