HOUSE OF REPRESENTATIVES 150th GENERAL ASSEMBLY

HOUSE BILL NO. 218

AN ACT TO AMEND TITLE 18 OF THE DELAWARE CODE RELATING TO LICENSED PROFESSIONAL ART THERAPISTS.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:

Section 1. The General Assembly declares that the purpose of this Act is to amend Title 18 of the Delaware Code to implement Subchapter V of Chapter 30 of Title 24 of the Delaware Code, relating to regulating professional art therapists, for consumers of mental health services receiving art therapy services provided by a licensed professional art therapist.

Section 2. The General Assembly finds and declares all of the following:

- (1) It is important for consumers of mental health services to have access to the licensed mental health professions in this State, including licensed professional art therapists.
- (2) Through the implementation of Subchapter V of Chapter 30 of Title 24 of the Delaware Code, licensed professional art therapists independently assess, treat, and prevent recognized mental health disorders, including complex trauma, mood disorders, substance abuse disorders, behavior disorders, anxiety, psychosis, cognitive disorders, and autism spectrum disorders, and provide psychotherapy to save lives and promote individuals' overall health, mental health, recovery, self-sufficiency, and relationships.
- (3) This State, as a "Trauma-Informed State", as declared by Governor John Carney in Executive Order 24, has an interest in securing the reimbursement eligibility of art therapy services, as a trauma recovery best practice to "prevent and respond to toxic stress and build resilience in children, teens, and communities," and in promoting the "evidence-based contributions of art therapists" in "school-based prevention and early intervention services to reduce barriers to learning" among other reimbursed specialized instruction support personnel treating students, as recognized by the United States Congress, H.Res. 823, April 12, 2018 and S.Res. 346, May 22, 2018.
- (4) Licensed professional art therapists are a distinct mental health profession, but are scarce in this State, largely due to health insurance carrier restrictions that exclude art therapists from the array of insureds' eligible reimbursed mental health care benefits in contracts or as provider-eligible, even though art therapists are licensed mental health care providers. These benefit and provider exclusions manufacturer real and significant barriers to health Page 1 of 4

care for consumers of mental health services wanting and needing art therapy services and suppresses the availability of these qualified health care workers in this State.

- (5) The General Assembly passed the Mental Health Parity Act (Senate Bill No. 230 of the 149th General Assembly), signed by Governor Carney on August 29, 2018, to eliminate mental health care coverage discrimination and ensure fair access to behavioral health treatment for those in need.
- (6) This State prohibits health insurance carriers from discriminating with respect to services provided by its licensed health care providers under § 3517L of Title 18 of the Delaware Code, which states: "A group health plan and a health insurer offering group health insurance coverage shall not discriminate with respect to participation under the plan or coverage against any health-care provider who is acting within the scope of that provider's license or certification under applicable state law." This State also prohibits health insurance carriers from discriminating against consumers of mental health services in health insurance contracts, under § 2304(13)b. of Title 18 of the Delaware Code, which states: "No person shall make or permit any unfair discrimination between individuals of the same class and of essentially the same hazard in the amount of premium, policy fees or rates charged for any policy or contract of accident or health insurance or in the benefits payable thereunder, or in any of the terms or conditions of such contract, or in any other manner whatever." Despite these laws, licensed professional art therapists continue to be excluded from the array of insureds' eligible reimbursed mental health care benefits in contracts or as provider-eligible.
- (7) Based on the findings of paragraphs (1) through (6) of this Section, the General Assembly declares its intent to do both of the following:
 - a. Include art therapy services provided by licensed professional art therapists as eligible for reimbursement and include licensed professional art therapists as provider-eligible.
 - b. Promote access to eligible licensed professional art therapy services by reimbursing services delivered in various settings where consumers of mental health services may receive care, including at inpatient and outpatient facilities, schools, colleges, community centers, residential facilities, in the community, and at home.
- Section 3. Amend Chapter 23, Title 18 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:
 - § 2319. Mental health care by licensed professional art therapists.
- 49 (a) For purposes of this section:
 - (1) "Art therapy services" means as the term is defined in § 3060 of Title 24.

51	(2) "Carrier" means an entity that provides health insurance in this State. "Carrier" includes an insurance
52	company, health service corporation, health maintenance organization, and any other entity providing a plan of health
53	insurance or health benefits subject to State insurance regulation.
54	(3) "Licensed professional art therapist" means as the term is defined in § 3060 of Title 24.
55	(4) "Mental condition" means a mental disorder as defined in the most recent edition of the American
56	Psychiatric Association's "Diagnostic and Statistical Manual of Mental Disorders."
57	(b) Art therapy services rendered or performed by a licensed professional art therapist allow for the independent
58	diagnosis, treatment, and prevention of mental conditions and are reimbursement-eligible services when rendered or
59	performed by a licensed professional art therapist in any of the following settings:
60	(1) An accredited hospital or other inpatient medical or mental health facility licensed in this State.
61	(2) An intensive outpatient program.
62	(3) A day treatment program.
63	(4) An outpatient medical or mental health facility or practice licensed in this State.
64	(5) A school or an institution of higher learning.
65	(6) A community center.
66	(7) A residential facility.
67	(8) In the community.
68	(9) In a home-based setting.
69	(c) A carrier, or a third-party administrator or other person that adjusts, administers, or settles claims in connection
70	with a plan of insurance or health benefits, may not deny benefits for eligible services when those services are rendered or
71	performed by a licensed art therapist acting independently within the scope of the licensed professional art therapist's
72	practice of providing art therapy services.
73	(d) A carrier may not issue or issue for delivery a contract of insurance in this State that excludes licensed
74	professional art therapists as providers of services covered in the contract.
75	(e) A carrier, or a third-party administrator or other person that adjusts, administers, or settles claims in connection
76	with a plan of insurance or health benefits, may not discriminate against or unreasonably deny a licensed professional art
77	therapist compensation for art therapy services rendered or performed if the carrier would otherwise compensate a provider
78	who is not a licensed professional art therapist but who is otherwise licensed to render or perform substantially similar
79	mental health assessment, diagnostic, treatment, psychotherapy, or prevention services as licensed.

Released: 06/13/2019 11:37 AM

(f) A carrier, or a third-party administrator or other person that adjusts, administers, or settles claims in connection	
with a plan of insurance or health benefits, may not engage in rate fixing or other discriminatory or unreasonable practices	
related to compensation for art therapy services provided by a licensed professional art therapist.	
(g) A carrier, or a third-party administrator or other person that adjusts, administers, or settles claims in connection	
with a plan of insurance or health benefits, may not waive, void, or nullify subsections (b) through (f) of this section by	
contract or in the fulfillment of these obligations.	

Section 4. This Act is to be known as the Art Therapist Reimbursement Act.

SYNOPSIS

This Act, the Art Therapist Reimbursement Act, expands consumers' access to mental health care by designating licensed professional art therapists as reimbursement-eligible under health insurance contracts in this State. By assuring parity and equity in health care, this Act not only secures art therapy services for consumers, but operates to increase the number of licensed professional art therapists available in this State to advance the State's comprehensive behavioral health, trauma-responsive, early-intervention, and student success initiatives.

This Act also allows licensed professional art therapists to provide art therapy services in various treatment settings to expand mental health access in this State.
