113 renewable annually in the discretion of the Department for a like period, upon payment of a like fee, to persons, clubs or
114 associations, authorizing the holders thereof to carry on, pursuant to regulations issued by the Department in furtherance of
115 the purposes of this subchapter, propagating, holding, raising, releasing and shooting of rabbits and game birds, such as but
116 not limited to pheasant, grouse, quail and partridge, hereinafter sometimes referred to individually or collectively as game.

117 Section 10. Effective date. This Act takes effect on July 1, 2017.

SYNOPSIS

This Act generates revenues needed for statewide wildlife conservation and for public access facilities on and the management and maintenance of public wildlife areas owned or managed by the Division of Fish and Wildlife (“Division”) by increasing fees for existing hunting and trapping licenses and by establishing a conservation access pass to be purchased by non-hunters for motor vehicles accessing these public lands. A conservation access pass would not be required to access certain such public lands to include the Michael Castle Trail portion of the C&D Canal Conservation Area, designated fishing or boating access areas, educational or shooting range facilities, and lands leased from the Division. Revenues generated by this Act would be leveraged by the Division to obtain federal grant funds at a ratio of \$1 of state funds to \$3 of federal funds, with current state wildlife program revenues insufficient to fully leverage available federal funds. The Act establishes a private license agent service charge for the sale of conservation access passes similar to previously established service charges for the sale of hunting and trapping licenses. Additional changes clarify inconsistent and update obsolete language, primarily involving terminology used for existing fee categories. Fee increases and the conservation access pass would be effective July 1, 2017.
