

CHAPTER 21  
FORMERLY  
SENATE SUBSTITUTE NO. 2  
FOR  
SENATE BILL NO. 50

AN ACT TO AMEND TITLE 14 AND TITLE 29 OF THE DELAWARE CODE RELATING TO THE ESTABLISHMENT OF A COMMUNITY COLLEGE INFRASTRUCTURE FUND.

WHEREAS, Delaware's Community College System, operated by Delaware Technical and Community College ("the College"), consists of over 40 buildings totaling 1.3 million square feet of space and is situated on approximately 352 acres of land across 4 campuses located in each county of the State and the City of Wilmington; and

WHEREAS, today, 79% of the College's facilities are more than 25 years old and, by 2020, 85% of the College's facilities will be more than 25 years old and more than 50% will be greater than 40 years old; and

WHEREAS, the replacement cost of the College's aging infrastructure is approximately \$400 million. According to industry standards, the College should be re-investing \$12 million annually to maintain the College's existing infrastructure. However, over the past 14 years, the College has received an average of only \$4.9 million for maintenance and minor capital improvements ("MCI"), thereby resulting in \$89.8 million in deferred maintenance alone. If not addressed, deferred maintenance is projected to exceed \$100 million by 2020; and

WHEREAS, in addition to deferred maintenance, the College has a critical need to build, renovate, or expand its academic and student support facilities in each county and the City of Wilmington at a current cost of \$69.8 million so that it can continue to address Delaware's economic and workforce development needs; and

WHEREAS, the College served over 33,500 Delawareans in its academic degree (credit) and workforce development (non-credit) programs in 2018, of which over 87% stayed and worked in Delaware after graduation and were hired by over 620 Delaware businesses in 2018; and

WHEREAS, the College receives students from all 19 Delaware school districts and has 269 transfer agreements with four-year colleges and universities; and

WHEREAS, a recent independent study revealed that the College's students who entered the workforce added over \$976.4 million to the state economy in 2014, and that every \$1 spent on the College returned \$3.20 in economic benefit to Delaware; and

WHEREAS, the College is in dire need of a stable and predictable funding source to finance its capital projects and deferred maintenance to ensure its continued contribution to Delaware's economy.
