(e) The State shall make some de-identified data public through press releases, publication, or a state-managed website.

The Department of Safety and Homeland Security has the sole discretion to determine what data may be disclosed under this subsection, except that the data on the state-managed website must include all of the following:

~~a. (1) Accident classification.~~

~~b. (2) Manner of impact.~~

~~c. (3) Alcohol or drug involvement.~~

~~d. (4) Date and time of accident.~~

~~e. (5) Conditions regarding road surface, lighting, and weather.~~

~~f. (6) Seat belt or helmet use.~~

~~g. (7) Geographic location.~~

~~h. (8) Contributing factors, including speed.~~ Primary contributing circumstances.

~~(3) The Department of Transportation may share traffic studies or analysis that contain the information permitted under paragraph (c)(2) of this section that the Department of Transportation has prepared in carrying out its functions.~~

~~(d) Accident reports and crash data under this section are not public records under the Freedom of Information Act, Chapter 100 of Title 29.~~

(f) Notwithstanding any provision under this section, the Director of the Delaware Criminal Justice Information System (DELJIS) may enter into a contractual agreement for the sale of de-identified data if the contracting party's use of the information is related to public safety. A contract under this subsection may include pricing models based on DELJIS's cost to produce, maintain, and distribute the records containing the information. The Department of Safety and Homeland Security has sole discretion to determine the data that may be disclosed under this subsection.
