20 College. This authorization is limited to conducting basic or applied research; transferring knowledge regarding
21 scientific and technological advancements; and providing practical training to the state and local governments in the

6 Judicial Branch, the Office of the Governor, the Office of Management and Budget, including Facilities Management,
7 and the Office of the Controller General, to develop a plan for implementing flexible, cost-effective and potentially
8 innovative solutions to these and other court facility space issues. The working group shall engage with the Delaware
9 State Bar Association to obtain input from practitioners who practice in the affected courts regarding the best manner
10 to ensure that litigants have access to high-quality, dignified, and safe courthouses within reasonable proximity to their
11 residences, and what combination of courthouses will accomplish that goal in the manner most cost-effective to
12 taxpayers in the long term. For the same reason, the working group will obtain input from other state agencies that
13 provide services related to litigants in the affected courts, to consider whether the co-location of offices would be
14 helpful to those receiving services and be more efficient for state taxpayers in the long term.

15 **Section 20. Kent and Sussex County Judicial Court Facilities.** (a) The Section 1 Addendum of this Act

16 includes an appropriation of ~~\$131,000,000~~\$80,000,000 for Kent and Sussex Family Court Facilities. The Section 1

20 with relocating the Department of Justice offices. Efficiencies shall be achieved in this process through the combining

14 shall be deemed substantially complete when the project is occupied by 75 percent of the planned tenants or when
15 deemed complete by the Appeals Board. One year after a project is deemed substantially complete, any unencumbered
16 authorization balance shall revert. In no case shall this section empower the Appeals Board to allow for the
17 expenditure of funds for uses other than for the funds authorized purpose(s). The Controller General shall notify the
18 Co-Chairs of the Joint Committee on Capital Improvements of any decisions of the Appeals Board.

19 (b) The use of MCI and Equipment funds in order to ensure completion of a Major Capital Improvement
20 project involving construction of a new facility is prohibited unless the use of such funds are necessary due to a legal

22 Budget, the Controller General and the Co-Chairs of the Joint Committee on Capital Improvements.

23 (c) A quarterly status report shall be submitted to the Controller General on all incomplete projects.

24 (d) No project's budget should be increased beyond what is appropriated in any Bond and Capital

4 subcontractors shall be listed at the start of the project and shall provide a performance and payment bond which
5 names the construction manager and the State of Delaware as additional insureds. All provisions of 29 Del. C. c. 69
6 are in effect for projects which utilize a construction manager.

11 Judiciary as appointed by the Chief Justice; and three members of the Executive Department to include the Director of
12 Facilities Management, the Director of the Office of Management and Budget and their designee. The Executive

18 maximum operational efficiencies both within the Judiciary and in conjunction with other criminal justice agencies;

7 enterprise standards and policies as defined by DTI pursuant to 29 Del. C. c. 90C. The specifications and standards
8 shall enable a single-card security solution for all state-owned facilities, require the ability for concurrent central and
9 local administration of card access functions and shall include a registry of approved card readers and associated
10 hardware required to implement card access security systems. It is the intent of this section to authorize the Office of
11 Management and Budget, DSHS and DTI to jointly select a single supplier, manufacturer or technology of access
12 cards and security management software for use by all state agencies. The Office of Management and Budget, DSHS
13 and DTI shall develop procedures and standards required for the evaluation and approval of agency requests for new or

17 or approve the design-build contract mechanism for up to twelve construction projects that are deemed necessary by
18 the Director for the efficient construction and improvement of state facilities. Design-build is a project delivery method
19 under which a project owner, having defined its initial expectations to a certain extent, executes a single contract for
20 both architectural/engineering services and construction. The selection processes and other terms of such contracts
21 may vary considerably from project to project. The design-build entity may be a single firm, a consortium, joint
22 venture or other organization. However, the fundamental element of design-build delivery remains that one entity
23 assumes primary responsibility for design and construction of the project. The Office of Management and Budget is
24 authorized to use this approach in completing its projects, subject to the following conditions:

25 (a) The contract terms shall include provisions to pay the prevailing wage rates determined by the
26 Department of Labor, as provided in 29 Del. C. § 6960, in conjunction with federal prevailing wage rates for such

20 82 Del. Law Ch. 244, § 40, state agencies have expressed interest in the Site. Accordingly, the State shall have
21 to ability to alternatively pursue transfer of control of the Site to any other state agency, which shall not affect
22 the State’s ability to offer, through a competitive process, the ~~s~~Site and improvements thereto for sale to a

2 agency determine that the property does suit the agency's needs, the Office of Management and Budget is

4 the property would address its needs, the Committee described below, with the assistance of the Office of
5 Management and Budget, shall carry out its duties as outlined herein through a Request for Proposal (RFP)
6 process to solicit redevelopment proposals for the ~~s~~Site. An RFP review committee shall be convened for the

9 developer's proposed entrance design conforms with the Department's subdivision requirements, pursuant to its
10 authority under 17 Del. C. § 146 and its related regulations, intended to protect public safety and maintain smooth
11 traffic flow. The government of New Castle County is also requested to solicit comments from and work with the
12 residents of surrounding communities, community organizations and state and local officials to address traffic safety
13 and other legitimate land use concerns about the proposed development, after the receipt of the Department's letter.

20 § 123 to address this issue. The Department shall prepare an inventory of all public streets within the State’s industrial
21 parks. It shall further rank all of these streets in the same manner that it prepares the annual program of roads eligible
22 for the Paving and Rehabilitation Program authorized elsewhere in this Act. The Secretary shall then distribute this
23 list to all members of the General Assembly, together with an estimate of the amounts necessary to address those
24 public streets in this inventory most in need of repair. If a member of the General Assembly elects to allocate funds
25 from ~~his/her~~ their CTF to repair any of these public streets, the Secretary may draw on this appropriation to match
26 those individual CTF dollars on the basis of three dollar from this special account for every one dollar allocated by the
27 member. The Secretary shall notify all members of ~~his/her~~ their intent to make such matching allocations and shall require
28 any member interested in participating to notify the Department of ~~his/her~~ their interest within 30 days from the date of

2 this section, the Department shall prioritize the industrial park streets to be improved on the basis of the ranking
3 required by this section, and shall share its decisions with all members of the General Assembly. For purposes of
4 preparing this inventory and ranking, the Department is authorized and directed to expend such sums as may be
5 necessary from the accounts established for statewide paving and rehabilitation activities. For purposes of eligibility,
6 the industrial park public streets shall be limited to those streets which meet department standards and are currently
7 maintained by the Department.

21 or replaced as the result of a transportation road project, the cost of said relocation or replacement, as well as the cost
22 of upgrading of the marker to current safety standards shall be borne by the Department as an expense of the project.

4 that the private utility facilities, owned by Linde LLC and installed in 1963 under permit by the then-Delaware
5 Highway Department, which previously supplied the EdgeMoor Plant with such gases, may enable future economic
6 development to the benefit of the citizens of the State of Delaware if permitted to remain in the Governor Printz
7 Boulevard right-of-way for another 10 year term. Under 26 Del. C. c. 13, utility corporations regulated by the Public
8 Service Commission are entitled to the free, regulated use of the State’s rights-of-way for the placement of gas, water,
9 wastewater and oil transmission pipelines. However, independent providers who are not so regulated may not use these
10 rights-of-way for the longitudinal placement of their facilities or transmission lines or similar underground conduits.
11 These entities may only enter into use and occupancy agreements to cross such rights-of-way. The General Assembly
12 notes that such independent providers are often unable to make any reasonable private arrangement for locating their
13 facilities on private easements or arrangement for location on public lands, unless a specific exception is created for
14 this limited purpose within the State’s rights-of-way.

15 (b) Notwithstanding any other provision of Delaware law, regulation, rule, or policy to the contrary, the
16 Department is authorized to contract for the use of the State’s rights-of-way with Linde LLC, a private independent
17 purveyor of industrial gases, or its successors or assigns, subject at all times to the following terms and conditions:

- 18 (i) provisions for review and approval by the Department of the location and placement of all such
19 privately owned facilities in the State’s rights-of-way, including but not limited to assuring compliance
20 with the Department’s Utility Manual Regulation and the Underground Utility Damage Prevention and
21 Safety Act (26 Del. C. c. 8);
- 22 (ii) provisions to reflect the fact that all other necessary approvals and agreements for such purposes have
23 been or will be obtained from the appropriate State agencies, as well as any relevant municipality or
24 other political subdivision of the State;
- 25 (iii) provisions for an appropriate initial length of time for which the State’s right-of-way will be used for
26 this purpose, similar to the franchise agreements the Department enters into with public utility
27 corporations, including any renewal terms thereof;

- 1 (iv) provisions to address the cost of future relocations of such privately owned facilities, if the right-of-
2 way is required for roadway purposes or by a public utility to be reconstructed, widened, or altered
3 during the term of the contract if efforts to find a reasonable and industry accepted alternative that does
4 not involve a relocation of the privately owned facilities cannot be found;
- 5 (v) provisions as needed to accommodate the New Castle County Sewer Interceptor project including (A)
6 provisions for the relocation of such privately owned facilities, within the State’s rights-of-way, if
7 efforts to find a reasonable and industry accepted alternative that does not involve a relocation of the
8 privately owned facilities cannot be found and (B) provisions for the prompt determination of a
9 reasonable and industry accepted alternative, including cost allocation and liability acknowledgement,
10 through an agreement between New Castle County and Linde LLC that is acceptable to the Department
11 of Transportation;
- 12 (vi) provisions for bonding or other acceptable forms of security for the eventual removal of such
13 facilities;
- 14 (vii) provisions for the conversion of the contract to a standard franchise agreement with a utility
