

LAWS OF DELAWARE  
VOLUME 84  
CHAPTER 121  
152nd GENERAL ASSEMBLY  
FORMERLY  
HOUSE SUBSTITUTE NO. 1  
FOR  
HOUSE BILL NO. 60  
AS AMENDED BY  
HOUSE AMENDMENT NO. 1

AN ACT TO AMEND TITLES 18, 29, AND 31 RELATING TO BREAST CANCER SCREENING AND DIAGNOSTIC PROCEDURES.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:

Section 1. Amend Chapter 35, Title 18 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:

§ 3552A. Supplemental and diagnostic breast examinations.

(a) As used in this section:

(1) “Breast magnetic resonance imaging” or “breast MRI” means a diagnostic tool, including standard and abbreviated breast MRI, that uses radio waves and magnets to produce detailed images of structures within the breast. A breast MRI may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(2) “Breast ultrasound” means a noninvasive diagnostic tool that uses high-frequency sound waves and their echoes to produce detailed images of structures within the breast. A breast ultrasound may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(3) “Cost-sharing requirement” means a deductible, coinsurance, or copayment and any maximum limitation on the application of such a deductible, coinsurance, copayment, or similar out-of-pocket expense.

(4) “Diagnostic breast examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To evaluate an abnormality seen or suspected from a screening examination for breast cancer.
- b. To evaluate an abnormality detected by another means of examination.

(5) “Mammogram” means a diagnostic or screening mammography exam using a low-dose X-ray to produce an image of the breast.

(6) “Supplemental breast screening examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To screen for breast cancer when there is no abnormality seen or suspected in the breast.
- b. Based on personal or family medical history or additional factors that may increase the individual’s risk of breast cancer.

(b) All group and blanket health insurance policies which are delivered or issued for delivery in this State by any health insurer or health service corporation and which provide benefits for outpatient services shall provide coverage for diagnostic breast examinations and supplemental breast screening examinations. The terms of such coverage, including cost-sharing

requirements, shall be no less favorable than the cost-sharing requirements applicable to screening mammography for breast cancer.

(c) This section does not apply to any of the following:

(1) A high deductible health plan if providing coverage under subsection (b) of this section would cause the plan to fail to be treated as a high deductible health plan under § 223(c)(2) of the Internal Revenue Code.

(2) A specified accident, specified disease, hospital indemnity, Medicare supplement, long-term care or other limited benefit health insurance policy.

Section 2. Amend Chapter 33, Title 18 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:

§ 3370F. Supplemental and diagnostic breast examinations.

(a) As used in this section:

(1) “Breast magnetic resonance imaging” or “breast MRI” means a diagnostic tool, including standard and abbreviated breast MRI, that uses radio waves and magnets to produce detailed images of structures within the breast. A breast MRI may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(2) “Breast ultrasound” means a noninvasive diagnostic tool that uses high-frequency sound waves and their echoes to produce detailed images of structures within the breast. A breast ultrasound may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(3) “Cost-sharing requirement” means a deductible, coinsurance, or copayment and any maximum limitation on the application of such a deductible, coinsurance, copayment, or similar out-of-pocket expense.

(4) “Diagnostic breast examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To evaluate an abnormality seen or suspected from a screening examination for breast cancer.
- b. To evaluate an abnormality detected by another means of examination.

(5) “Mammogram” means a diagnostic or screening mammography exam using a low-dose X-ray to produce an image of the breast.

(6) “Supplemental breast screening examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To screen for breast cancer when there is no abnormality seen or suspected in the breast.
- b. Based on personal or family medical history or additional factors that may increase the individual’s risk of breast cancer.

(b) All individual health insurance policies, contracts, or certificates that are delivered, issued for delivery, extended, or modified in this State shall provide coverage for diagnostic breast examinations and supplemental breast screening examinations. The terms of such coverage, including cost-sharing requirements, shall be no less favorable than the cost-sharing requirements applicable to screening mammography for breast cancer.

(c) This section does not apply to any of the following:

(1) A high deductible health plan if providing coverage under subsection (b) of this section would cause the plan to fail to be treated as a high deductible health plan under § 223(c)(2) of the Internal Revenue Code.

(2) A catastrophic health plan if providing coverage under subsection (b) of this section would cause the plan to fail to be treated as a catastrophic plan under § 1302(e) of the Patient Protection and Affordable Care Act, 42 U.S.C. § 18022(e).

(3) A specified accident, specified disease, hospital indemnity, Medicare supplement, long-term care or other limited benefit health insurance policy.

(d) If, at any time, the State is required under federal law to defray the cost of any coverage required under this section, the requirements under this section are inoperative and the State does not assume any obligation for the cost of coverage.

Section 3. Amend Chapter 52, Title 29 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:

§ 5217. Supplemental and diagnostic breast examinations.

(a) As used in this section:

(1) “Breast magnetic resonance imaging” or “breast MRI” means a diagnostic tool, including standard and abbreviated breast MRI, that uses radio waves and magnets to produce detailed images of structures within the breast. A breast MRI may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(2) “Breast ultrasound” means a noninvasive diagnostic tool that uses high-frequency sound waves and their echoes to produce detailed images of structures within the breast. A breast ultrasound may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(3) “Cost-sharing requirement” means a deductible, coinsurance, or copayment and any maximum limitation on the application of such a deductible, coinsurance, copayment, or similar out-of-pocket expense.

(4) “Diagnostic breast examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To evaluate an abnormality seen or suspected from a screening examination for breast cancer.
- b. To evaluate an abnormality detected by another means of examination.

(5) “Mammogram” means a diagnostic or screening mammography exam using a low-dose X-ray to produce an image of the breast.

(6) “Supplemental breast screening examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

- a. To screen for breast cancer when there is no abnormality seen or suspected in the breast.
- b. Based on personal or family medical history or additional factors that may increase the individual’s risk of breast cancer.

(b) The plan shall provide coverage for diagnostic breast examinations and supplemental breast screening examinations. The terms of such coverage, including cost-sharing requirements, shall be no less favorable than the cost-sharing requirements applicable to screening mammography for breast cancer.

Section 4. Amend Chapter 5, Title 31 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:

§ 532. Supplemental and diagnostic breast examinations.

(a) As used in this section:

(1) “Breast magnetic resonance imaging” or “breast MRI” means a diagnostic tool, including standard and abbreviated breast MRI, that uses radio waves and magnets to produce detailed images of structures within the breast. A breast MRI may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(2) “Breast ultrasound” means a noninvasive diagnostic tool that uses high-frequency sound waves and their echoes to produce detailed images of structures within the breast. A breast ultrasound may be used as a screening tool when clinically indicated, including after indeterminant results from a mammogram that requires additional evaluation and for those at high risk for breast cancer.

(3) “Carrier” means any entity that provides health insurance under § 505(3) of this title.

(4) “Cost-sharing requirement” means a deductible, coinsurance, or copayment and any maximum limitation on the application of such a deductible, coinsurance, copayment, or similar out-of-pocket expense.

(5) “Diagnostic breast examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

a. To evaluate an abnormality seen or suspected from a screening examination for breast cancer.

b. To evaluate an abnormality detected by another means of examination.

(6) “Mammogram” means a diagnostic or screening mammography exam using a low-dose X-ray to produce an image of the breast.

(7) “Supplemental breast screening examination” means a medically necessary and clinically appropriate examination of the breast, including such examination using breast MRI, breast ultrasound, or mammogram, that is used for either of the following:

a. To screen for breast cancer when there is no abnormality seen or suspected in the breast.

b. Based on personal or family medical history or additional factors that may increase the individual’s risk of breast cancer.

(b) All carriers shall provide coverage for diagnostic breast examinations and supplemental breast screening examinations. The terms of such coverage, including cost-sharing requirements, shall be no less favorable than the cost-sharing requirements applicable to screening mammography for breast cancer.

Section 5. This Act takes effect 60 days after its enactment and applies to all policies, contracts, or certificates issued, renewed, modified, altered, amended, or reissued after December 31, 2024.

Approved July 26, 2023
