The General Assembly provides two grant funding opportunities each fiscal year: [Grant-In-Aid \(GIA\)](#) and the [Community Reinvestment Fund \(CRF\)](#). GIA funding is for eligible non-profit organizations that provide activities, programs, or services to the citizens of Delaware. CRF funding is a capital grant program for county and local governments and non-profit 501(c)(3) organizations that can be used to support community redevelopment, revitalization, and investment capital projects within Delaware communities. If you are acting on behalf of an eligible organization seeking to submit a GIA or CRF request, you must complete the registration process.

**Step 4D: Secure access and set multifactor authentication methods.**

Clicking the green “Activate Account” button in the automated email will cause your computer to navigate to the My Delaware platform, asking you to set up at least one more authentication factor. My Delaware supports multiple authentication methods, including using an authenticator app (Okta Verify), sending a text message to your phone, or creating a security question. While you can set this up later, within several days after the initial registration, My Delaware will eventually require you to set up one of these methods upon sign in.

You can click the gray “Set up” button under whichever option(s) you prefer or click the blue “Set up later” button towards the bottom of the prompt to set this up during a future sign in. Using the phone option is likely the most convenient option for most users. Follow the on-screen instructions if you click any of the gray “Set up” buttons.

The screenshot shows the 'Secure access and set multifactor authentication methods' screen on the my.delaware.gov website. At the top is the My Delaware logo and the URL. Below the title, the user's email address is displayed: @jasonrsmithtesting+applicant5@gmail.com. A message instructs the user to verify their email, create a password, and set up at least one more authentication factor, noting that security methods help protect the account by ensuring only the user has access. Under the heading 'Set up optional', there are three choices: 'Okta Verify' (an authenticator app), 'Phone' (verify with a code sent to the phone), and 'Security Question' (choose a question and answer for signing in). Each option has a 'Set up' button. At the bottom, there is a large blue 'Set up later' button and a link to 'Back to sign in'.

## Step 5: Land at the Grants Management System Registration Quiz.

After signing in with your existing My Delaware account or through the My Delaware account that you may have just created by either completing enrollment in a multifactor authentication method or choosing to set up later from Step 4D, you will automatically be navigated to the Grants Management System Registration Quiz screen.

Here is where you begin the registration process for your organization for access to the Grants Management System. Follow the on-screen instructions and select the Organization Type that best describes your organization.
