- (2) An insurer which otherwise possesses funds as required under this subsection (a) above, shall at all times maintain policyholders' surplus (combined paid-in capital stock, if any, and surplus) reasonable in amount, as determined by the Commissioner, in relation to the kinds and amount of insurance it has in force, or being written and retained by it, net of applicable reinsurance. In making any such determination the Commissioner shall give due consideration to any applicable standards approved or adopted by the National Association of Insurance

SYNOPSIS

Delaware's capital and surplus requirements for insurers have been in place for over fifty years and are currently among the lowest in the country. This bill increases the minimum amount of capital stock and free surplus an insurer must possess and maintain in order to transact business in the State of Delaware, making them more in line with other jurisdictions.
