SYNOPSIS

The state's pre-application process for land use process, known as PLUS, was created 20 years ago and has served to increase coordination among state and local agencies. In doing so, it has fulfilled its intent of providing predictability and consistency for the development community, especially in the area of major projects. Given that success, this bill assists in expediting the process for economic development projects in the State of Delaware with some exemptions from the PLUS process. A project located in Investment Level 1 or 2 under the Strategies for State Policies and Spending that is consistent with local zoning and any local comprehensive plan that will create full-time jobs is exempt from the pre-application process unless required by the local government or requested by the applicant.
