Chapter 30L.

§ 3003L. Definitions.

For purposes of this chapter:

(6) "Health-care provider" means a licensed physician (Doctor of Medicine or Doctor of Osteopathic

(b) The Council shall create and maintain a concussion management section on its website to provide the
guidelines necessary for each organization with non-scholastic youth athletic activity to develop their own policies and
procedures pertaining to, but not limited to, the creation and production of all of the following:

(1) A concussion information sheet for coaches, officials, athletes, and athletes' parents or guardians advising

SYNOPSIS

In 2016, the General Assembly passed HB 404, the Concussion Protection in Youth Athletic Activities Act (CPYAAA). This Act clarifies the requirements of CPYAAA and enables the Division of Public Health, in consultation with the State Council for Persons with Disabilities, to promulgate regulations to broadly implement the Act. This Amendment adds the requirement for non-scholastic athletic activity organizations to develop policies and procedures for advising athletes, coaches, officials, parents, and guardians of the signs and symptoms of concussion and explaining the risk of continuing to practice or compete in athletic events or activities after sustaining a concussion, as well as providing information about returning to academic and athletic events or activities after sustaining a concussion.
