DELAWARE STATE SENATE
152nd GENERAL ASSEMBLY

SENATE BILL NO. 223

AN ACT TO AMEND TITLE 16 AND TITLE 18 OF THE DELAWARE CODE RELATING TO PARAMEDIC SERVICES.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:

1 Section 1. Amend § 9801, Title 16 of the Delaware Code by making deletions as shown by strike through and
2 insertions as shown by underline as follows:

3 § 9801. Purpose.

4 (a) It is the purpose of this chapter to establish a statewide paramedic program under the direction of the Office of
5 Emergency Medical Services, Division of Public Health, Department of Health and Social Services.

6 (b) The paramedic program includes a coordinated advanced life support system, under qualified medical
7 supervision, which has the responsibility for providing a rapid response capability in the delivery of emergency medical
8 services to individuals who become unexpectedly ill or incapacitated or who are otherwise placed in a position where
9 highly skilled medical assistance must be rendered to sustain or maintain such individual prior to institutional health care.

10 (c) The paramedic services program shall be utilized for medical emergencies, either at the scene or while the
11 patient is in transit to a health facility.

12 (d) It is the further purpose of this chapter to provide a program which shall have a direct impact on the morbidity
13 and mortality rates of this State and which, over a period of time, will also reduce health-care costs to each emergency
14 patient.

15 (e) It is the further purpose of this chapter to establish a framework for the creation of an effective and efficient
16 means for the provision of advanced life support services to the citizens of ~~the~~ this State regardless of their economic status,
17 who require such services without prior inquiry as to the patient's ability to pay.

18 (f) This chapter is intended to promote the public health, ~~safety~~ safety, and welfare of the citizens of this State by
19 providing for the creation of a statewide advanced life support services system, in conjunction with the efforts of all
20 providers of emergency medical services in this State, with uniform standards for all such providers of advanced life
21 support services.

22 (g) It is the further purpose of this chapter to ~~insure~~ ensure that emergency patients requiring advanced life support
23 services are transported from the scene of a medical emergency to the nearest emergency medical institution or the
24 institution of their choice, within reason, that possesses the equipment and staff resources to immediately attend to the
25 particular needs of the patient. This statement is tempered by the understanding that, in certain circumstances, it may be
26 necessary to bypass the closest medical facility if specialized medical care is required. It shall also be understood that the
27 use of paramedics to assist in the transfer of patients to facilities and programs which offer such follow-up care and
28 rehabilitation as is necessary to effect the maximum recovery of the patient, shall be permitted when deemed medically
29 necessary.

30 (h) It is the further purpose of this chapter to ensure that patients who are being seen under a written agreement
31 and enrollment into a mobile-integrated healthcare or community paramedicine program are not considered emergencies,
32 but rather follow up to a previous medical condition that required emergency transport to a hospital.

33 Section 2. Amend § 9802, Title 16 of the Delaware Code by making deletions as shown by strike through and
34 insertions as shown by underline as follows:

35 § 9802. Definitions [Effective until July 17, 2028].

36 ~~The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in~~
37 ~~this section, except where the context clearly indicates a different meaning:~~ For purposes of this chapter:

38 (6) “Community paramedicine” means a form of mobile-integrated healthcare that is a provider-led, patient-
39 centered delivery care model using appropriately trained paramedics or other emergency medical services providers in
40 an expanded role to render care, facilitate a more efficient delivery of care, and enhance access to community resources
41 that address the social determinants of health.

42 (19) “Mobile-integrated healthcare” means an expanded role for a paramedic or other emergency medical
43 services provider that is a coordinated, patient-centered, evidence-based holistic model of care designed to use
44 collaborative, interdisciplinary teams to serve patient needs at the most appropriate level of care at a safe location
45 convenient to the patient.

46 (20) “Mobile-integrated healthcare or community paramedicine medical director” means an individual who is
47 employed to work in a mobile-integrated healthcare or community paramedicine program and who meets the
48 requirements to be a medical control physician or be board certified or eligible in the individual’s medical specialty.

49 (21) “Mobile resources” means the ability of a paramedic or other emergency medical services provider to
50 connect directly with members of the healthcare team via technology, such as telehealth, that allows for real time
51 discussion of the patient’s healthcare needs and possible visual examination of a specific concern.

52 (21)(25)a. “Pre-hospital care” ~~shall mean~~ means any emergency medical service, including advanced life
53 support, rendered by an emergency medical unit before and during transportation to a hospital or other facility, and
54 upon arrival at the facility until such care is assumed by the facility’s ~~staff;~~ staff.

55 b. “Pre-hospital care” does not include the care provided by a paramedic or other emergency medical
56 services provider employed by a mobile-integrated healthcare or community paramedicine program.

57 (30) “Team-based, patient-centered delivery model” means a healthcare delivery model that includes multiple
58 levels of providers to meet all of a patient’s needs and to promote wellness.

59 Section 3. Amend § 9802, Title 16 of the Delaware Code by making deletions as shown by strike through and
60 insertions as shown by underline as follows:

61 § 9802. Definitions [Effective July 17, 2028].

62 ~~The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in~~
63 ~~this section, except where the context clearly indicates a different meaning. For purposes of this chapter:~~

64 (6) “Community paramedicine” means a form of mobile-integrated healthcare that is a provider-led, patient-
65 centered delivery care model using appropriately trained paramedics or other emergency medical services providers in
66 an expanded role to render care, facilitate a more efficient delivery of care, and enhance access to community resources
67 that address the social determinants of health.

68 (19) “Mobile-integrated healthcare” means an expanded role for a paramedic or other emergency medical
69 services provider that is a coordinated, patient-centered, evidence-based holistic model of care designed to use
70 collaborative, interdisciplinary teams to serve patient needs at the most appropriate level of care at a safe location
71 convenient to the patient.

72 (20) “Mobile-integrated healthcare or community paramedicine medical director” means an individual who is
73 employed to work in a mobile-integrated healthcare or community paramedicine program and who meets the
74 requirements to be a medical control physician or be board certified or eligible in the individual’s medical specialty.

75 (21) “Mobile resources” means the ability of a paramedic or other emergency medical services provider to
76 connect directly with members of the healthcare team via technology, such as telehealth, that allows for real time
77 discussion of the patient’s healthcare needs and possible visual examination of a specific concern.

78 (21)(25)a. “Pre-hospital care” ~~shall mean~~ means any emergency medical service, including advanced life
79 support, rendered by an emergency medical unit before and during transportation to a hospital or other facility, and
80 upon arrival at the facility until such care is assumed by the facility’s ~~staff;~~ staff.

81 b. “Pre-hospital care” does not include the care provided by a paramedic or other emergency medical
82 services provider employed by a mobile-integrated healthcare or community paramedicine program.

83 (30) “Team-based, patient-centered delivery model” means a healthcare delivery model that includes multiple
84 levels of providers to meet all of a patient’s needs and to promote wellness.

85 Section 4. Amend Chapter 98, Title 16 of the Delaware Code by making deletions as shown by strike through and
86 insertions as shown by underline as follows:

87 § 9817. Mobile-integrated healthcare and community paramedicine programs.

88 (a) An organization licensed as or actively seeking licensure as an emergency medical services provider agency
89 may apply to the Office to establish a mobile-integrated healthcare or community paramedicine program.

90 (b) The Office shall review an application filed under subsection (a) of this section and make a recommendation
91 on the application to the Director of the Division of Public Health.

92 (c) The Director of the Division of Public Health shall approve an application filed under subsection (a) of this
93 section if the application meets the requirements of this section.

94 (d) The Office shall establish standards, approved by the Board of Medical Licensure and Discipline, for the
95 establishment and operation of a mobile-integrated healthcare or community paramedicine program.

96 (e) On filing of an application under subsection (a) of this section, an organization must be licensed as or actively
97 seeking licensure as an emergency medical services provider agency.

98 (f)(1) A mobile-integrated healthcare or community paramedicine program must have a mobile-integrated
99 healthcare or community paramedicine medical director and a mobile-integrated healthcare or community paramedicine
100 program coordinator.

101 (2) A mobile-integrated healthcare or community paramedicine medical director has the responsibilities of an
102 EMS medical director under § 9806(b) of this title.

103 (g) An individual employed to work in a mobile-integrated healthcare or community paramedicine program shall
104 meet the requirements for certification or licensure imposed by this State and the organization employing the individual.

105 (1) A mobile-integrated healthcare or community paramedicine program may include physicians, nurse
106 practitioners, advanced practice registered nurse, registered nurses, licensed practical nurses, physician assistants,
107 physical or occupational therapists, mental health providers, paramedics, or other emergency medical services
108 providers.

109 (2) A paramedic or other emergency medical services provider providing care through a mobile-integrated
110 healthcare or community paramedicine program is subject to discipline as provided under § 9811 of this title.

111 (3) An individual other than a paramedic or other emergency medical services provider providing care
112 through a mobile-integrated healthcare or community paramedicine program is subject to discipline by the body
113 certifying or licensing the individual.

114 (h)(1) A mobile-integrated healthcare or community paramedicine program must have a structured education
115 program, approved by the Office, which includes didactic and clinical components.

116 (2) Performance, skills, and continuing education must be documented by an organization's mobile-integrated
117 healthcare or community paramedicine program for each emergency medical services provider in the organization's
118 mobile-integrated healthcare or community paramedicine program.

119 (i) An emergency medical services provider employed to work in a mobile-integrated healthcare or community
120 paramedicine program shall complete the State's mandatory recertification education for the emergency medical services
121 provider's specific level of training and any recertification education required by the mobile-integrated healthcare or
122 community paramedicine program.

123 (j) An organization shall develop protocols for the organization's mobile-integrated healthcare or community
124 paramedicine program specific to the program's community healthcare needs.

125 (k)(1) An organization's mobile-integrated healthcare or community paramedicine program may not exceed the
126 scope of practice of an emergency medical services provider without the approval of the Office and Director of the Division
127 of Public Health.

128 (2) A request to expand the scope of practice of an emergency medical services provider must be approved by
129 the Office and the Director of the Division of Public Health, with input from the Board of Medical Licensure and
130 Discipline.

131 (l)(1) Section 9813 of this title does not apply to a paramedic's provision of care through a mobile-integrated
132 healthcare or community paramedicine program.

133 (2) An organization shall ensure the appropriate liability protection for a paramedic providing care through a
134 mobile-integrated healthcare or community paramedicine program.

135 (m) The Office may adopt regulations to administer, enforce, and implement this section.

136 Section 5. Amend § 6701B of Title 18 of the Delaware Code by making deletions as shown by strike through and
137 insertions as shown by underline as follows:

138 § 6701B. Definitions.

139 As used in this chapter, the following words and terms have the following meanings:

140 (14) “Paramedic” means a person who is employed by a county paramedic service as defined in § 9802(7)
141 9802 of Title 16, has been approved by the National Registry of Emergency Medical Technicians or the Commission
142 on Accreditation of Allied Health Education Programs (CAAHEP), maintains Delaware certification, and is faithfully
143 and actually performing service in the State.

144 Section 6. This Act is effective immediately and is implemented on the date of publication in the Register of
145 Regulations of a notice by the Director of the Office of Emergency Medical Services that the Office is prepared to
146 implement this Act.

SYNOPSIS

This Act is the product of the work of stakeholders who, with the encouragement of Senate Concurrent Resolution No. 50 (152nd General Assembly), met to examine how to integrate mobile-integrated healthcare and community paramedicine into existing regulatory structures in this State.

Mobile-integrated healthcare and community paramedicine are innovative patient-centered models for the delivery of health care services that utilize mobile resources to deliver care and services to patients in an out-of-hospital environment in coordination with healthcare facilities or other healthcare providers.

As part of mobile-integrated healthcare and community paramedicine programs, emergency medical services provider agencies across the country of all sizes and types are partnering with hospitals, primary care physicians, nurses, and mental health and social services providers on innovative programs that both navigate patients to the right level of care as well as achieve goals of improved care and lower costs.

Clinical research studies comparing patients in traditional hospitals with patients who received hospital-level care at home through mobile-integrated healthcare and community paramedicine programs have found that those who received in-home care experienced fewer readmissions, lower mortality rates, reduced falls, and higher patient satisfaction rates.

Based on temporary federal law enacted to relieve strain on healthcare systems caused by the COVID-19 pandemic, hospitals in this State developed relationships with emergency medical services provider agencies to implement mobile-integrated healthcare and community paramedicine programs. However, this temporary federal authorization will end on December 31, 2024. Many states have acted ahead of the expiration of this federal authorization to incorporate mobile-integrated healthcare and community paramedicine programs into existing regulatory structures.

This Act integrates mobile-integrated healthcare and community paramedicine programs into existing regulatory structures in this State by authorizing the establishment of mobile-integrated healthcare and community paramedicine programs in this State through the Office of Emergency Medical Services (“Office”) in the Department of Health and Social Service’s Division of Public Health (“Division”). Specifically, this Act does the following:

(1) Authorizes an organization licensed as or actively seeking licensure as an emergency medical services provider agency to apply to the Office to establish a mobile-integrated healthcare or community paramedicine program.

(2) Requires the Office to review applications to establish mobile-integrated healthcare or community paramedicine programs and make recommendations to the Director of the Division, who is required to approve applications that meet the requirements established by this Act and regulations adopted by the Office.

(3) The Office is required to establish standards, approved by the Board of Medical Licensure and Discipline, for the establishment and operation of mobile-integrated healthcare or community paramedicine programs

This Act takes effect immediately for purposes of the Office of Emergency Medical Services preparing to implement this Act, but is not implemented until the date of publication in the Register of Regulations of a notice by the Director of the Office of Emergency Medical Services that the Office is prepared to implement this Act.

The changes to the definition section, § 9802 of Title 16 of the Delaware Code, in Sections 2 and 3 of this Act are identical. These changes had to be made twice as § 9802 of Title 16 currently has 2 versions, one effective until July 17, 2028, and one effect as of July 17, 2028.

This Act also makes technical corrections to conform existing law to the standards of the Delaware Legislative Drafting Manual and, in Section 5 of this Act, to correct an internal reference in § 6701B of Title 18 of the Delaware Code affected by changes in Sections 2 and 3 of this Act.
