DELAWARE STATE SENATE
152nd GENERAL ASSEMBLY

SENATE CONCURRENT RESOLUTION NO. 201

ESTABLISHING THE PUBLIC EDUCATION FUNDING COMMISSION.

1 WHEREAS, Delaware’s public education funding system (“funding system”) should support student achievement
2 and well-being, educator recruitment and retention, and Delaware’s community, economy, and quality of life; and

3 WHEREAS, students’ academic and social-emotional needs post-pandemic require a comprehensive and statewide
4 focus as districts and charter schools face a critical junction with the end of federal Elementary and Secondary School
5 Emergency Relief Fund (“ESSER”) funding assistance; and

6 WHEREAS, there is agreement that action should be taken to improve the funding system, including to better
7 address student needs, increase flexibility to serve students, and address the equitable distribution of resources across
8 districts and charter schools; and

9 WHEREAS, decades of progress have been made to improve components of the funding system, including adding
10 funding to support high-need students, supports for mental health, and updating needs-based funding; and

11 WHEREAS, state laws and regulations for public education funding, administration, and programs have a direct
12 impact on district and charter school funding needs and resource allocations; and

13 WHEREAS, as a component of the Delaware Education Funding Lawsuit Settlement, Delaware contracted with
14 the American Institutes of Research (“AIR”) to produce the independent report, “Assessment of Delaware Public School
15 Funding,” released in 2023, and the report made systemic recommendations to improve Delaware’s funding system to
16 support student achievement; and

17 WHEREAS, also as a result of legal settlements for funding equity, each county in Delaware will complete a
18 property tax reassessment by 2025 for the first time in decades that will impact revenue and school funding and the
19 distribution of residential and commercial property taxation; and

20 WHEREAS, Delaware has opportunities to improve in the areas of student achievement, opportunities, and well-
21 being; educator recruitment and retention; and access to high-quality pre-kindergarten for children below the age of 5; and

22 WHEREAS, modifications should be made to the funding system to build on existing progress and improve it
23 further, based on research from other states, while maintaining the strengths of the current funding system; and

24 WHEREAS, the lack of adequate support for many students has led to conditions that are detrimental to efforts to
25 recruit and retain teachers, resulting in a shortage of educators and a dwindling pipeline; and

26 WHEREAS, additional resources are required to meet the state goals, based on national research and the
27 professional judgment of Delaware educators.

28 NOW, THEREFORE:
