#### SYNOPSIS

House Bill No. 302 clarifies that the creation or possession of an altered or fake vaccination document is forgery in the second degree. This crime includes electronic vaccination documents because the existing definition of "written instrument" under § 863 of Title 11 includes electronic equivalents. This Act does not address electronic vaccination records because the existing crime of misusing computer system information, § 935 of Title 11, clearly covers tampering with computer records, which includes vaccination records.

House Substitute No. 1 for House Bill No. 302 revises the language describing the altered or fake vaccination document so it cannot be read as requiring each of the details listed.

This Act also makes technical corrections to conform existing law to the standards of the Delaware Legislative Drafting Manual.
