SYNOPSIS

This bill seeks to create the Expanded Protection for Our Communities and Homes (EPOCH) Grant Program through a one-time appropriation of \$20 million. The grant money would be distributed to every Delaware police agency

that chooses to participate. The distribution would consist of a minimum standard allocation made to each agency and an allocation based on the number of uniformed officers authorized for each agency. EPOCH grants could be used by the recipient agencies to recruit new officers; promote or encourage careers in law enforcement; initially pay the salaries of newly hired officers; pay for overtime to facilitate additional work to address issues of local concern (including traffic enforcement); and implement programs designed to improve public safety in the area of the agency's jurisdiction. The grant allocations would be available for the agencies to use for up to three years, after which any unused and unencumbered funding would return to the General Fund.
