## DELAWARE STATE SENATE 152nd GENERAL ASSEMBLY

## SENATE BILL NO. 54

AN ACT TO AMEND TITLE 26 OF THE DELAWARE CODE RELATING TO NET METERING.

## BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:

1	Section 1. Amend subsections (d) and (e)(1) of § 1014 of Title 26 of the Delaware Code by making deletions as
2	shown by strike through and insertions as shown by underline as follows:
3	(d) The Commission, municipal electric companies, and electric cooperatives during any period of exemption under
4	§ 223 of this title shall each promulgate rules and regulations that provide for net energy metering for customers who own
5	and operate, lease and operate, or contract with a third party that owns and operates an electric generation facility that:
6	(1) Has a capacity that:
7	a. For residential customers of DP&L, DEC, and municipal electric companies, has a capacity of not more than
8	25 kW;
9	b. For farm customers as described in § 902(3) of Title 3 who are customers of DP&L, DEC, or municipal
10	electric companies that receive distribution service under a residential tariff or service offering, does not exceed
11	more than 100 kW. On a case by case basis the Delaware Department of Natural Resources and Environmental
12	Control shall review a farm's application for a system above 100 kW by comparing the output of the system to
13	the energy requirements of the farm and may grant a waiver to increase the size of the system above the 100 kW
14	limit. The Delaware Department of Natural Resources and Environmental Control shall promulgate rules and
15	regulations for such waivers in consultation with any commission-regulated electric utilities. Such waivers for
16	DEC or municipal electric company customers shall be approved by DEC or the municipal electric company
17	serving said customer;
18	c. For nonresidential customers, is not more than 2 megawatts per DP&L meter, and 500 kW per DEC or
19	municipal electric company meter. DEC and municipal electric companies are encouraged to provide for net-
20	metering up to a capacity of not more than 2 megawatts for nonresidential customers.
21	(2) Uses as its primary source of fuel solar, wind, hydro, a fuel cell, or gas from the anaerobic digestion of organic
22	material;

23	(3) Is located on the customer's premises;
24	(4) Is interconnected and operated in parallel with an electric distribution company's transmission and distribution
25	facilities; and
26	(5) Is designed to produce no more than 110% of the host customer's expected aggregate electrical consumption,
27	calculated on the average of the 2 previous 12-month periods of actual electrical usage at the time of installation of
28	energy generating equipment. For new building construction, electrical consumption will be estimated at 110% of
29	the consumption of units of similar size and characteristics at the time of installation of energy generating
30	equipment. Subject to the effective dates in Any provision of subsection (e) of this section notwithstanding,
31	commission-regulated electric utilities, municipal electric companies, and electric cooperatives during any period of
32	exemption under § 223 of this title, shall not, at the end of the annualized billing period, reimburse, credit, or
33	otherwise remunerate the net energy metering customer for any Excess kWh Credits.
34	(e) The rules and regulations promulgated for net energy metering by the Commission, municipal electric
35	companies, and electric cooperatives during any period of exemption under § 223 of this title must consider the reliability,
36	safety, and capacity of the electric distribution system and:
37	(1) a. Provide for customers to be credited in kilowatt-hours (kWh) for any excess production of their generating
38	facility that exceeds the customer's on-site consumption of kWh in a billing period (an "Excess kWh Credit").
39	Excess kWh Credits shall be credited to subsequent monthly billing periods to offset a customer's consumption in
10	those billing periods. Excess kWh Credits at the end of the annualized billing period shall revert to the electric
11	distribution company providing electric distribution to the eustomer; customer; for commission-regulated utilities,
12	this section shall take effect on May 31, 2023. A commission-regulated utility may continue to make payments for
13	Annual Excess kWh until May 31, 2023.
14	b. Effective January 1, 2024, For for commission-regulated utilities for existing and future net energy metering
15	customers, both residential and nonresidential, the monthly Excess kWh Credit shall be valued at the sum of the
16	volumetric (kWh) components of the supply service charges and distribution service charges, not including the
<b>1</b> 7	charges for societal benefits programs, according to each participating customer account's rate schedule. Any
18	Excess kWh Credits shall not reduce any fixed monthly customer charges imposed by the electric distribution
19	company. The customer-generator retains ownership of all renewable energy credits (RECs) associated with
50	electric energy produced unless the customer has relinquished such ownership by contractual agreement with a
51	third party or by other means. This paragraph (e)(1) does not apply to customers participating in a community-
52	owned energy generating facility, as the provisions regarding community-owned energy generating facilities are

Released: 02/28/2023 02:41 PM

53 addressed elsewhere in the Delaware Code. "Societal benefits program" means a program required by law in which a benefit to the public at large accrues as a result of its implementation. Societal benefits programs 54 55 include: 56 1. Green Energy Fund under subsection (a) of this section. 2. Low Income Fund under subsection (b) of this section. 57 3. Charges incurred by the utility in complying with the state mandated renewable energy portfolio standard 58 59 under § 358(f)(1) of this title. 60 4. The charge imposed under § 364 of this title for qualified fuel cells. 61 5. Energy efficiency programs under § 8059(h)(1)e. of Title 29.

## **SYNOPSIS**

This bill extends the effective date of certain provisions of Section 1014 of Title 26 of the Delaware Code for utilities regulated by the Public Service Commission.
