12 protection providers”.

13 FURTHER AMEND House Bill No. 127 on line 33 by deleting “fire company” and inserting in lieu thereof “fire
14 protection provider”.

SYNOPSIS

This Amendment revises House Bill No. 127 to make ambulance service providers who are recipients of a Grant-in-Aid eligible for money collected from a county’s fire protection fee. There are currently 3 volunteer ambulance service providers that are not operated by fire companies but are treated in the same manner as fire companies for certification, audits, and all receive a Grant-in-Aid in the section of the annual Grant-in-Aid bill for fire companies.

Under HB 127, “fire protection” includes ambulances and basic life support, but only fire companies who are a recipient of a Grant-in-Aid and provide fire protection outside the City of Wilmington can receive money from a county’s fire protection fee.

This Amendment revises HB 127 to define “ambulance service provider” as a organization that is a recipient of a Grant-in-Aid for the operation and maintenance of ambulances and groups ambulance service providers with fire companies under the term “fire protection provider” so that all organizations that receive a Grant-in-Aid and provide ambulance services in the county, outside of the City of Wilmington, are eligible to receive money collected under a county fire protection fee and if these funds are received, the organization must include that money in the annual audit required under current law.
