and such laborers and mechanics. The specifications shall <u>must</u> further stipulate that the scale of wages to be paid shall <u>must</u> be posted by the employer in a prominent and easily accessible place at the site of the work, and that there may be withheld from the employer so much of accrued payments as may be considered necessary by the Department of Labor to pay to laborers and mechanics employed by the employer the difference between the rates of wages required by the contract to be paid laborers and mechanics on the work and rates of wages received by such laborers and mechanics to be remitted

to the Department of Labor for distribution upon resolution of any claims.

SYNOPSIS

This Act closes a loophole in the prevailing wage statute that was being used to pay workers below the prevailing wage by performing work offsite instead of onsite, regardless of whether it was necessary to do so.

This bill also makes technical corrections to conform existing law to the standards of the Delaware Legislative Drafting Manual.
