## ESTABLISHING THE STUDENT BEHAVIOR AND SCHOOL CLIMATE TASK FORCE.

| 1  | WHEREAS, all students and educators deserve learning and working environments that are safe, inclusive,                        |
|----|--|
| 2  | supportive, and fair; and  |
| 3  | WHEREAS, while educators across the nation are working to provide safe and secure learning environments for                    |
| 4  | students, issues related to student behavior and school climate present significant challenges to student learning conditions, |
| 5  | educator working conditions, and the safety of students and educators; and   |
| 6  | WHEREAS, according to the Delaware Department of Education's 2023 School Discipline Improvement Program                        |
| 7  | summary report, the total number of students suspended, total number of days suspended, and total number of suspensions        |
| 8  | all increased for the 2022-2023 school year as compared to the 2021-2022 school year; and                                      |
| 9  | WHEREAS, a 2022 American Psychological Association study found that nearly half of the teachers surveyed                       |
| 10 | indicated a desire or plan to quit or transfer jobs due to school climate and safety issues; and                               |
| 11 | WHEREAS, the National Association of School Principals Framework for Effective School Discipline cites key                     |
| 12 | components of effective school discipline, including clearly defined behavioral expectations that are taught and consistently  |
| 13 | reinforced, data-based decision making within a multidisciplinary problem-solving team, a tiered system of behavioral          |
| 14 | supports to meet the needs of each student, and ongoing, job-embedded professional development to increase school staff        |
| 15 | capacity to implement effective, positive, and equitable discipline that reinforces culturally responsive positive discipline  |
| 16 | techniques and helps to mitigate bias; and   |
| 17 | WHEREAS, zero-tolerance policies, aggressive policing in schools, and other extreme school discipline practices                |
| 18 | lead to high rates of suspensions, expulsions, and arrests of students, causing large numbers of students to be pushed out of  |
| 19 | school and into the juvenile and criminal justice systems, fueling the school-to-prison pipeline; and                          |
| 20 | WHEREAS, according to the 2021 American Institute for Research study of New York City public schools,                          |
| 21 | exclusionary discipline does not serve as a deterrent to students' future behavior and may exacerbate it in younger students,  |
| 22 | nor does it improve students' or teachers' perceptions of school climate; and  |
| 23 | WHEREAS, harsh or unfair discipline practices can contribute to students feeling unwelcome, unsafe, and                        |
| 24 | unsupported; and   |

| 25 | WHEREAS, when students feel uncomfortable in their school environment, schools miss crucial opportunities to            |
|----|---|
| 26 | support students with the social, emotional, physical, academic, and mental health support they need to be on a path to |
| 27 | success; and  |
| 28 | WHEREAS, though Delaware provides some funding and support to districts through the Comprehensive School                |
| 29 | Discipline Improvement Program under the Department of Education, there is a need to examine the current funding levels |
| 30 | and support offered to districts; and   |
| 31 | WHEREAS, schools can both keep their school community safe while ensuring every student is included,                    |
| 32 | supported, and treated fairly; and  |
| 33 | WHEREAS, the General Assembly is committed to addressing student learning and safety in a comprehensive                 |
| 34 | way; and  |
| 35 | WHEREAS, the General Assembly is committed to addressing recruitment and retention challenges among the                 |
| 36 | educator workforce in a comprehensive way; and  |
| 37 | WHEREAS, convening a broad group of stakeholders for purposes of examining the extent of and solutions to               |
| 38 | challenges involving student behavior and school climate throughout Delaware, including identifying and replicating     |
| 39 | effective programs and best practices in Delaware and beyond, is an important component of the General Assembly's       |
| 40 | commitment to a comprehensive, effective approach.  |
| 41 | NOW, THEREFORE:   |
