SUBCHAPTER XVI. THE COMPLETE YOUR DEGREE GRANT PROGRAM.

§ 3417A. Purpose.

This grant program will provide the necessary resources to prospective students who are reenrolling in a publicly funded associate degree program in this State.

§ 3418A. Eligibility, generally; maintaining eligibility.

(a) To be eligible to participate in the Complete Your Degree Grant Program and to qualify for a grant to pay tuition pursuant to this subchapter for the reenrollment into an associate degree program in this State a student must meet all of the following:

(1) Must be enrolled on a full-time or part-time, degree-seeking basis at an eligible public postsecondary institution or, if a student with a disability, be seeking a degree through the institution's academic accommodation policy.

(2) The student may not have been convicted of any felony and the student shall certify such fact.

(3) A student shall have applied for all appropriate forms of financial aid for which the student is eligible including the federal Pell Grant, financial aid programs administered by the Delaware Higher Education Office, and financial aid programs administered by the eligible public postsecondary institution, and shall have accepted all such financial assistance offered or awarded to the student, except for loans.

(4) Must be a resident of this State for 1 year immediately preceding the date of application for a grant under this subchapter.

(5) Must not have been enrolled in or attended any postsecondary institution for at least 24 months immediately preceding the date of initial application for a grant under this subchapter.

(6) Must have earned a minimum of 30 credit hours toward completion of an associate degree as determined by the postsecondary institution attended.

(7) Must have a dependency status of independent and have an adjusted gross income attributable to the student that does not exceed \$36,000.

(b) A student will not be required to meet any academic standard at the time of enrollment in the eligible public postsecondary institution; except that the student must be mathematically able at the time of enrollment to achieve any grade point average required for graduation with the degree sought, as determined by the postsecondary institution attended.

(c) To maintain eligibility and continued state payment of tuition under the grant program as provided in this subchapter, the student must meet all of the following:

(1) Enroll in classes that lead to completion of an associate degree.

(2) Maintain satisfactory academic progress, earning at least 9 credit hours per semester during any fall or spring semester, unless otherwise required by the specific academic program in which the student is enrolled.

(3) Maintain continuous enrollment at an eligible public postsecondary institution for not less than two semesters in each successive academic year, unless granted an exception for cause by the institution.

(4) Achieve a minimum cumulative grade point average of at least 2.5 calculated on a 4.0 scale or as determined by the institution attended at the end of each academic semester. The institution may grant exceptions upon appeal.

(5) Reapply for the grant as specified by program requirements established by the eligible public postsecondary institution pursuant to § 3419A of this subchapter.

(d) If a student ceases to be eligible for the grant at any time for any reason the student will not be able to regain eligibility for a grant under this subchapter.

(e) If, as a result of applying for federal and state student financial aid, or through other means, it becomes apparent that deliberate fraud was involved in the application process, the institution may reevaluate the recipient's eligibility for a grant under this subchapter, and may withdraw a grant award. Any grant award made as a result of deliberate fraud may be recovered by the State through an action at law.

§ 3419A. Implementation of application procedures; promotion.

(a) Each eligible public postsecondary institution shall establish and implement procedures to accept applications and award grants to eligible students subject to appropriations for such purpose.
