SYNOPSIS

This Act will expand New Castle County's limited authority to lease park land or land held in public trust to include leases for erecting, maintaining and operating wireless communications facilities. State law currently limits public land leases to those for recreational purposes and related activities. At common law, the State legislature must approve transfers or changes in the use of park land; however, this function may be delegated to municipalities through legislative action.

This Act is intended to abrogate the restrictions on permitted uses for public parks, held in a public trust as provided in the common law, including the restrictions set forth in Anderson v. Mayor and Council of Wilmington, 137 A.2d 521 (Del. Ch. 1958) and Lord v. City of Wilmington, 332 A.2d 414 (Del. Ch. 1975), aff'd, 378 A.3d 635 (Del. 1977), and to amend state law to permit specifically a wireless communications lease on such land as minimally intrusive and with the approval of County Council.
