#### SYNOPSIS

This Concurrent Resolution establishes a task force ("Task Force") to study and make recommendations regarding the policies, rules, structure, and regulations of the Division of Developmental Disabilities Services ("Division"). The Division provides home and community-based services for adults with intellectual and developmental disabilities.

The Task Force will consider, have access to, and make recommendations on several matters, including:

- (1) Wages and turnover rates for direct support professionals.
- (2) Design of systems changes and performance measures.
- (3) Other trends, analyses, and recommendations.
- (4) A synopsis of provider violations, probation, appeals, and ultimate outcomes from 2015 through 2019.

The data provided to the Task Force are not records or proceedings for the purposes of § 1768 of Title 24, commonly known as "peer review privilege." The release of data for the purposes of the Task Forces' work does not waive the privileged nature of the data, which must already omit information that may identify a specific patient or provider before it is provided to the Task Force.

This Concurrent Resolution is the result of the Joint Legislative Oversight and Sunset Committee deciding not to review the Division in 2020 and instead allow the Division time to undergo a more brief method of review. This process was initially created as an advisory council through Senate Bill No. 154 of the 150th General Assembly, but was later determined to be better achieved through a task force.
