HOUSE OF REPRESENTATIVES  
150th GENERAL ASSEMBLY

HOUSE CONCURRENT RESOLUTION NO. 69

REQUESTING THE DIVISION OF RESEARCH, THE OFFICE OF MANAGEMENT AND BUDGET, AND THE DELAWARE DEPARTMENT OF TECHNOLOGY AND INFORMATION COOPERATE IN CREATING AN IMPLEMENTABLE PLAN TO STREAM LIVE AUDIO AND VIDEO OF ALL GENERAL ASSEMBLY PUBLIC FLOOR PROCEEDINGS AND COMMITTEE ACTION; RECORD ALL SUCH MATERIAL; AND MAKE THESE RECORDINGS AVAILABLE TO THE PUBLIC VIA A WEB-BASED ARCHIVE.

1 WHEREAS, the Delaware General Assembly currently streams only live audio of its public proceedings in the  
2 House of Representatives and Senate; and

3 WHEREAS, the majority of the committee meetings in the House of Representatives and Senate are not streamed  
4 or recorded in any fashion; and

5 WHEREAS, the General Assembly's proceedings are typically held during weekdays, when many Delawareans  
6 cannot easily travel to Legislative Hall or listen to live feeds of the action; and

7 WHEREAS, other state legislatures in the nation employ technology to stream online all the audio and video of  
8 their floor action and committee meetings; and

9 WHEREAS, streaming audio and video can be easily captured, archived, and made available for on-demand  
10 viewing via the internet; and

11 WHEREAS, there is presently no online archive of any of the General Assembly's floor activity, even though the  
12 audio of all sessions is recorded; and

13 WHEREAS, the Delaware General Assembly has a duty to the citizens for which it works to be as open and  
14 transparent in its operations as possible; and

15 WHEREAS, there is a broad range of existing equipment, software, and options to facilitate online streaming and  
16 archiving of the General Assembly's activities; and

17 WHEREAS, there is no viable reason why the Delaware General Assembly should not commit itself to invest in  
18 the technology and infrastructure needed to empower citizens to better engage in the democratic process by accessing the  
19 work performed by their elected officials.

20 NOW, THEREFORE:

21 BE IT RESOLVED by the House of Representatives of the 150th General Assembly of the State of Delaware, the  
22 Senate concurring therein, that the Division of Research, the Office of Management and Budget, and the Delaware  
23 Department of Technology & Information (to be known as the General Assembly Streaming Working Group) are requested  
24 to cooperate in creating an implementable plan to stream audio and video of all General Assembly public floor proceedings  
25 and committee action; record all such material; and make these recordings available to the public via a web-based archive.

26 BE IT FURTHER RESOLVED that General Assembly Streaming Working Group shall consist of two members  
27 of the Division of Research, the Office of Management and Budget, and the Delaware Department of Technology &  
28 Information. The representatives of each agency shall be determined by the heads of each agency, with one of the members  
29 of the Division of Research selected to serve as the chairperson of the group.

30 BE IT FURTHER RESOLVED that the General Assembly Streaming Working Group may add ad hoc, non-voting  
31 members as needed to complete its task.

32 BE IT FURTHER RESOLVED that the General Assembly Streaming Working Group should receive staff support  
33 from the Division of Research, and other such support as may be needed and requested from among the members of the  
34 working group.

35 BE IT FURTHER RESOLVED that the Division of Research shall guide the General Assembly Streaming  
36 Working Group by doing, at a minimum, all of the following:

37 (1) Setting a date, time, and place for the initial meeting;

38 (2) Notifying the individuals listed in lines 26 through 29 of the formation of the General Assembly Streaming  
39 Working Group and the need to appoint a member, if applicable.

40 (3) Supervising the preparation and distribution of meeting notices, agendas, minutes, correspondence, and reports  
41 of the General Assembly Streaming Working Group.

42 BE IT FURTHER RESOLVED that the plan crafted by the General Assembly Streaming Working Group should  
43 assume the purchase and installation of the technology and devices required to facilitate the streaming of audio and video  
44 from the chambers of the House of Representatives and the Senate, as well as all publicly accessible rooms in Legislative  
45 Hall and the Tatnall Building where public committee meetings are usually held.

46 BE IT FURTHER RESOLVED that the plan should emphasize the use of automated systems that can be accessed  
47 and used by legislative staff and legislative fellows with a minimum of training.

48 BE IT FURTHER RESOLVED that the plan should consider cost-effective solutions when considering how to  
49 capture, stream, record, and archive high-quality audio and video of the General Assembly's floor proceedings and  
50 committee work.

51 BE IT FURTHER RESOLVED that the plan should contain, but not be limited to, the equipment, software, and  
52 required infrastructure and training that will be acquired; the approximate total cost of the project; and a schedule for  
53 implementing the system.

54 BE IT FURTHER RESOLVED that the plan should consider cost-effective solutions when considering how to  
55 capture, stream, record, and archive high-quality audio and video of the General Assembly's floor proceedings and  
56 committee work.

57 BE IT FURTHER RESOLVED that that this plan should include a protocol accounting for the audio/video  
58 recording of any public committee meeting not taking place in a space equipped for online streaming and that such  
59 recordings should be posted to the online archive within 24 hours of the conclusion of the meeting.

60 BE IT FURTHER RESOLVED that the plan should be completed and delivered to every member of the 151<sup>st</sup>  
61 General Assembly, the governor, the Director and the Librarian of the Division of Research of Legislative Council and the  
62 Delaware Public Archives, and posted on the General Assembly's website no later than January 15, 2021.

63 BE IT FURTHER RESOLVED that the members of the 151<sup>st</sup> General Assembly are requested to make the plan  
64 the subject of a Bill or Joint Resolution -- requiring a vote by both chambers of the legislature and the signature of the  
65 governor -- to approve the implementation of the plan and request the Joint Finance Committee and Joint Bond Bill  
66 Committee to include funding for the project in the state capital budget in the first fiscal year following the enactment of  
67 such legislation.

#### SYNOPSIS

Requesting the Division of Research, the Office of Management and Budget, and the Delaware Department of Technology & Information cooperate in creating a detailed and implementable plan to stream audio and video of all floor proceedings of the House of Representatives and Senate, and the public committee action of both legislative chambers; record all such material; and make these recordings available to the public via a web-based archive. The resolution further requests the 151st General Assembly and the governor to vote on the finished plan and authorize the funding needed to implement it.
