## HOUSE OF REPRESENTATIVES 151st GENERAL ASSEMBLY

## HOUSE CONCURRENT RESOLUTION NO. 11

## RECOGNIZING FEBRUARY 12, 2021 AS "WORLD CHOLANGIOCARCINOMA DAY" IN DELAWARE.

1	WHEREAS, cholangiocarcinoma, also known as bile duct cancer, is a cancer that occurs in the bile ducts in or
2	outside the liver that play a key role in the digestive cycle; and
3	WHEREAS, there are three types of cholangiocarcinoma based on the location they occur: intrahepatic, located in
4	the smaller bile duct branches in the liver, perihilar, located where the left and right hepatic ducts have joined and are
5	leaving the liver, and distal, which is located near the small intestine; and
6	WHEREAS, nearly 10,000 Americans develop cholangiocarcinoma every year; and
7	WHEREAS, the average age of those with cholangiocarcinoma is 72, however approximately 1/3 of those
8	diagnosed are under 65, with the youngest known patient being 12; and
9	WHEREAS, early detection can be key in treating cholangiocarcinoma, but only a small number of cases are
10	found early enough to be removed by surgery; and
11	WHEREAS, because it is difficult to detect and diagnose cholangiocarcinoma due to the bile ducts being deep in
12	the body and there not being a reliable blood test, when diagnosed, patients usually present with more developed tumors;
13	and
14	WHEREAS, there is currently no cure for cholangiocarcinoma; and
15	WHEREAS, the 5-year survival rate for this type of cancer is 2 to 30%; and
16	WHEREAS, increased awareness and research of this cancer could lead to earlier detection and better treatments
17	in the future; and
18	WHEREAS, different foundations, research centers, and charities throughout the world have come together to
19	raise awareness of cholangiocarcinoma with World Cholangiocarcinoma Day; and
20	WHEREAS, Kelly green signifies cholangiocarcinoma awareness; and
21	NOW, THEREFORE:
22	BE IT RESOLVED by the House of Representatives of the 151st General Assembly of the State of Delaware, the
23	Senate concurring therein, that February 12, 2021 is recognized as World Cholangiocarcinoma Day.

## **SYNOPSIS**

Cholangiocarcinoma, also known as bile duct cancer, is a cancer that occurs in the bile ducts in or outside the liver. This Resolution recognizes February 12, 2021 as "World Cholangiocarcinoma Day" in Delaware.
