SYNOPSIS

This amendment establishes exceptions as to whom is eligible to receive public health emergency credits. Those exceptions include inmates serving a sentencing for violent Title 11 crimes such as murder, rape, continuous sexual abuse of a child, and assault in a detention facility. Other exceptions includes crimes that occur in correctional facilities such as promoting prison contraband and escape after conviction and those inmates who have been found guilty of more than 2 Class I or more than 5 Class II disciplinary violations in the previous 24 months. This amendment also clarifies that the credit awarded cannot be in excess of 240 days for any declared emergency and the credit cannot reduce an inmate's Level 5 time to less than 50% of the inmate's sentence. This amendment also makes clear that the Department of Correction must notify victims in writing of the expected release date. Finally, this amendment makes the bill effective 35 days after enactment.
