HOUSE RESOLUTION NO. 17

ESTABLISHING THE BEHAVIORAL HEALTH CRISIS CARE TASK FORCE TO STUDY AND MAKE FINDINGS  
AND RECOMMENDATIONS REGARDING CREATING A BEHAVIORAL HEALTH CRISIS CARE SYSTEM IN  
THIS STATE.

1 WHEREAS, the lack of adequate and organized crisis services in the community has put police departments in a  
2 difficult position; and

3 WHEREAS, police departments are forced to balance public safety and community service; and

4 WHEREAS, often, the quickest and easiest solution is arrest and incarceration of an individual who is suffering  
5 from mental health or substance abuse crisis; and

6 WHEREAS, prisons lack the policies, resources, and staff trained in behavioral health to deal with the needs of a  
7 person with behavioral health needs, particularly someone in crisis; and

8 WHEREAS, offenders with mental illness are incarcerated twice as long and are 3 times more likely to be sexually  
9 assaulted while incarcerated; and

10 WHEREAS, offenders with mental illness are also more likely to be in solitary confinement, which exacerbates  
11 psychiatric symptoms; and

12 WHEREAS, even if released from incarceration, there are many adverse effects from incarceration such as  
13 difficulty finding employment, higher risk of homelessness and rearrest, and interruption in Medicaid and other benefits;  
14 and

15 WHEREAS, only 34% of prisoners in state prisons with a mental health problem receive mental health treatment  
16 after admission into a correctional facility; and

18 hospital emergency room, who have inadequate numbers of behavioral health professional on staff, and transporting  
19 individuals to hospitals is time consuming and often futile; and

20 WHEREAS, Delaware needs to redirect its reliance on law enforcement as mental health crisis responders and  
21 develop a crisis service system based in behavior health principles; and

WHEREAS, based upon national guideless, there are 3 major components to a comprehensive crisis system, and each must be in place in order for the system to be optimally effective, and these are: (1) Regional Crisis Call Center; (2) Mobile Crisis Response Team; and (3) Crisis Receiving and Stabilization Facilities; and
