Such conditions may include, by way of example, and not by way of limitation, precertification and referral requirements.

(d) Benefit management. —

(1) A carrier may, directly or by contract with another qualified entity, manage the benefit prescribed by subsection (b) of this section in order to limit coverage of services provided in the diagnosis and treatment of a serious mental illness and drug and alcohol dependency to those services that are deemed medically necessary as follows:

b. A carrier may not impose precertification, prior authorization, pre-admission screening, or referral requirements for the diagnosis and medically necessary treatment, including in-patient treatment, of drug and alcohol dependencies.

c. The benefit prescribed by subsection (b)(1) of this section may not be subject to concurrent utilization review during the first 14 days of any inpatient admission to a facility approved by a nationally recognized healthcare accrediting organization or the Division of Substance Abuse and Mental Health, 30 days of Intensive Outpatient Program treatment, or 5 days of inpatient withdrawal management, provided that the facility notifies the carrier of both the admission and the initial treatment plan within 48 hours of the admission. The facility shall perform daily clinical review of the patient, including the periodic consultation with the carrier to ensure that the facility is using the evidence-based and peer reviewed clinical review tool utilized by the carrier which is designated by the American Society of Addiction Medicine (“ASAM”) or, if applicable, any state-specific ASAM criteria, and appropriate to the age of the patient, to ensure that the inpatient treatment is medically necessary for the patient.

e. A covered person does not have any financial obligation to the facility for any treatment under subsection (b)(1) of this section other than any copayment, co-insurance, or deductible otherwise required under the health benefit plan.

(2) This section shall not be interpreted to require a carrier to employ the same benefit management procedures for serious mental illnesses and drug and alcohol dependencies that are employed for the management of other illnesses

or diseases covered by the health benefit plan or to require parity or equivalence in the rate, or dollar value of, claims denied.

(e) Out of network services. — Where a health benefit plan provides benefits for the diagnosis and treatment of serious mental illnesses and drug and alcohol dependencies within a network of providers and where a beneficiary of the health benefit plan obtains services consisting of diagnosis and treatment of a serious mental illness and drug and alcohol dependency outside of the network of providers, this section shall not apply. The health benefit plan may contain terms and conditions applicable to out of network services without reference to this section.
