3 extent of such inconsistency.

4
5 Section 3. If any provision of this Act, or of any rule, regulation or order thereunder, or th
6 application of such provision to any person or circumstances, shall be invalid, the remainder of this Act
7 and the application of such provisions of this Act or of such rule, regulation or order to persons or
8 circumstances other than those to which it is held invalid shall not be affected thereby.

9
10 Section 4. The monies appropriated in Section 1 of this Act shall be paid by the State Treasurer
11 from the General Fund, except as otherwise referenced in Section 1.

12
13 Section 5. The provisions of this Act to the contrary notwithstanding, any section, chapter or titl

9 order to minimize such exposure, the funds within the Reserve Account for CSCRP Disallowances (10-

25 Section 1 of this Act, in excess of the amount reverted from the applicable line code on June 30 of th
26 fiscal year in which the expense was incurred, will require the requesting agency or school district to

2 proof of circumstances beyond an agency's ability to encumber must be documented on the request for
3 transfer to be excluded from the reimbursement clause. All requests for prior year funds to complete th
4 payment of one-time items will require a reimbursement to the Prior Years' Obligations account by th

16 The remaining 50 percent shall be transferred within 30 days of the final approval of th
17 district application for funding.

18 In the application, districts shall detail the proposed utilization of funds as well as
19 the incorporation of the following criteria:

14 eligible employee receives a share of the total district allocation equal to the individual
15 employee's reimbursable expenditure divided by the total reimbursable expenditure of

12
13 Section 398. (a) Section 45 of this Act continues appropriations to Public Education, Block
14 Grants and Pass Through Programs, Professional Accountability and Instructional Advancement Fund
15 (95-03-10) for Shared Decision Making. Based on the current level of activity in the program, such
16 funds are sufficient to meet the needs of the Shared Decision Making program in Fiscal Year 2001.
17 The Governor and General Assembly recognize the importance of increased local board and school
18 building level authority as a means toward improving student achievement and increasing
19 accountability. This recognition is consistent with the requirements contained within the Federal
20 Improve America's Schools Act (IASA) for any school receiving funds under said Act. Pursuant to
21 Chapter 8, Title 14, Delaware Code, individual school buildings within local school districts that have
22 adopted a district transition plan as specified in Section 803(d), Chapter 8, Title 14, Delawar _Code,
23 may apply for a school level grant to conduct structured conversations at the school building level, and
24 subsequently develop a school transition plan. These grants shall be funded in the amount of \$7.5 per
25 school building and shall be provided to the local school district. As stipulated in Chapter 8, Title 14,
26 Delaware Code, one-third of the amount (\$2.5) shall be made available for the school level structured
27 conversation, and the remaining two-thirds (\$5.0) will be used to design a transition plan at the school

1 building level. Funding for these grants will be provided through a combination of prior year
2 appropriations within the Professional Accountability and Instructional Advancement Fund (95-03-10)
3 for this purpose, and Federal Goals 2000 funds, if a local district decides to prioritize its Goals 2000
4 application in favor of Shared Decision Making.

5 (b) Local School Districts that applied for a district level grant pursuant to Section 807(b),
6 Chapter 8, Title 14, Delaware Code, by April 1, 2001, shall receive a district level grant from prior
7 year funds. Districts are eligible for grants in the amount of \$20.0 per district, provided they meet th
8 criteria established in the Delaware Code. Approximately one-third of that award (or \$6,667) shall b
9 available for the district level conversations, and the remaining two-thirds (or \$13,333) will be used to
10 design a transition plan at the district level.

11 (c) Local school districts shall address the district's progress or intentions pursuant to th
12 provisions of Chapter 8, Title 14, Delaware Code in the IASA consolidated application in a format
13 specified by the Department of Education. Local school districts that did not make application for th
14 school level grants specified in Chapter 8, Title 14, Delaware Code, on or before May 1, 2001, shall
15 prioritize the use of Goals 2000 funding based on the competitive criteria developed by the State of
16 Delaware. Any local school district that opts to prioritize the use of Goals 2000 funding in a manner so as
17 to use the funds for the purposes other than Shared Decision Making shall not be eligible for funds for th
18 purposes described in this Section from any source during FY 2001. The Federal Goals 2000 funding for
19 this purpose shall be made available at such time that a local school district meets the requirements
20 contained in Chapter 8, Title 14, Delaware Code. Local school districts that do apply for school level
21 grants as specified in Chapter 8, Title 14, Delaware Code shall make the full amount of the grants
22 available to school buildings for the purposes specified in Chapter 8, Title 14, Delaware Code, regardless
23 of the source of such funding, in the amounts specified in subsection (a) of this Section. Sufficient
24 funding shall be made available to each local school district to provide for these grants and to cover
25 indirect costs and audit fees. Pursuant to the Federal Goals 2000 requirements, each local school district
26 must insure that 50 percent of the total district grant is provided to schools with special needs as defined
27 by the local district. Special needs may be indicated by a high number or percentage of students from

1 low-income families, low student achievement, or other similar criteria developed by the local school
2 district.

3 (d) It is anticipated that individual school buildings that are successful in developing a school
4 transition plan, and subsequently desire to develop a school improvement plan as specified in Section
5 806, Chapter 8, Title 14, Delaware Code, will be provided school improvement grants pursuant to said
6 Chapter. It is anticipated that these grants will be composed of the conversion of certain discretionary
7 state resources.

8
9 Section 399. Section 1 of this Act makes an appropriation to the State Board of Education Block
10 Grant and Pass Through Programs, Academic Excellence Block Grant (95-03-10). Of the amount

12 accordance with Section 1716, Title 14, Delaware Code. The balance of \$4,022.3 shall be allocated to
13 school districts in proportion to the number of Division I Units each district enrolls on the last school day
14 in September 2000. School districts may use the funds to: purchase computer hardware, software or
15 services; calculators; library resources; fund homebound instruction costs; provide substitute teachers;
16 provide additional nurses so long as the district is entitled to less than one nurse per school; provide a
17 student work-study program; provide conflict resolution training; provide extended day or extended year
18 programs for students performing below the standard level; provide stipends for professionals engaged in
19 curriculum or professional development activities sponsored by a local school district or the Department
20 of Education, outside of the regular school day. Included in this amount are sufficient funds to increase
21 the daily rate for Class A Substitutes to \$104.00, Class B Substitutes to \$83.00 and Class C Substitutes to
22 \$66.00. School districts may form consortia, utilizing homebound funds, to purchase or provide services.
23 No homebound funds may be spent to provide services to students who have been suspended or expelled
24 from school, except for special education students. The State Board of Education shall provide an annual
25 summary of school district plans for use of Academic Excellence funds to the Budget Director and
26 Controller General no later than December 1 of each year.

27

1 Section 400. Section 1 of this Act appropriates \$1,002.5 to Public Education, Block Grants and

4 This appropriation will provide each local school district with the state share of salaries in
5 accordance with Title 14, Section 1305, Delaware Code for 1.0 11-month Reading Specialist. Th
6 purpose of this Specialist will be the creation of a Reading to Reading Cadre which will provid

12 2001, is authorized to exercise the cash option on Academic Excellence units up to the total number of
13 units provided under that program. This provision will apply for Fiscal Year 2001 only. In addition,
14 districts meeting this criteria are authorized to utilize funds derived from this cash option to pay local

21 privately donated funding, to defray costs for teachers seeking national board certification from th
22 National Board for Professional Teaching Standards (NBPTS). Recognizing the effort involved in
23 pursuing such certification as well as the value it will bring to Delaware teachers and students, a NBPTS
24 certification obtained under this program by an individual paid under Title 14, Section 1305, Delawar
25 Code, excluding superintendents, assistant superintendents, directors, and individuals employed in non-
26 instructional areas detailed in Section 1312(c), and employees at th Department of Education shall result
27 in a salary supplement as specified in Title 14, section 1305(m), Delaware Code. The salary supplement

1 shall be based upon the 10-month base state salary scale for teachers. The Department of Education shall

11 no educable mentally handicapped are being classified as learning disabled; and that strict guidelines are

14 physiological or neurological disorders. All pupils classified learning disabled or socially or emotionally
15 maladjusted must be reevaluated at least every two years, except psychological evaluation shall be made
16 at least every three years. The State Board shall report annually to the Budget Director and the Controller

2 can only be used for costs associated with the state share as provided in Title 14, Chapter 13, Sections
3 1305 and 1324, Delaware Code.

4
5 Section 427. (a) Section 1 of this Act provides an appropriation of \$3,300.0 to Public Education,
6 Pupil Transportation (95-04-01) for Non-Public School Transportation Reimbursements. This
7 appropriation shall be allocated for qualifying non-public, non-profit schools, based on the procedur
8 adopted by the Joint Finance Committee on April 16, 1981.

9 (b) Transportation funds for public school districts during the fiscal year ending June 30, 2001,
10 shall be allocated and shall not exceed \$49,941.6 (of which \$600.0 is designated as a transportation
11 contingency for the Charter and Choice initiatives), according to bus contract or district transportation
12 formula, as adopted by the State Board of Education on July 23, 1987, subject to the following
13 amendments and procedural modifications:

14 (1) The per gallon price used to calculate the gasoline allowance shall be based on the stat
15 contract bid price for unleaded gasoline plus \$.07 per gallon for districts and plus \$.28
16 per gallon for contractors. For districts and contractors north of the Chesapeake and
17 Delaware Canal, the per gallon price shall be based on delivery to a large-sized tank
18 (5,000 or more gallons). In the case of contractors located south of the Chesapeake and
19 Delaware Canal, the per gallon price shall be based on delivery to a small-sized tank (275
20 - 1,900 gallons). Upon determination by the Department of Education that a contractor
21 located North of the Chesapeake and Delaware Canal and operating five or fewer buses
22 does not have existing storage capacity in the large tank range, the per gallon price shall
23 be based on the smaller tank size.

24 (2) The Fiscal Year 2001 operating allowance will be adjusted for inflation by a rate of three
25 percent.

26 (3) For the fiscal year ending June 30, 2001, the allowable cost of a new bus purchased by
27 a contractor shall be the Fiscal Year 2000 state bid price for new buses minus two

1 percent for salvage value, plus eleven percent to account for dealer charges and profits
2 not reflected in the state bid price due to the higher number of buses being purchased
3 and the lag time between the ordering and delivery. The Department of Education
4 shall continue to utilize the procedures developed in Fiscal Year 1989 for determining
5 the allowable cost for any size bus that it did not bid in Fiscal Year 2000. In addition
6 to the procedure for establishing the allowable cost of a new bus specified above, th
7 Department of Education is requested to structure its bids for buses in the fiscal year
8 ending June 30, 2001, in such a manner that public school bus contractors will b
9 permitted to purchase buses from the successful lower bidder at the same price as th
10 State of Delaware. If a contractor elects to purchase a bus at the bid price, that bid
11 price minus two percent for salvage value will be the allowable cost in subsequent
12 reimbursements to the contractor.

13 (4) The formula rate for reimbursing public school bus contractors for the cost of liability
14 insurance shall be determined by the Department of Education in consultation with the
15 Insurance Commissioner based on the data available on April 30 of the previous fiscal
16 year.

17 (c) The Department of Education shall amend its transportation formula to permit replacement of
18 a vehicle which has operated 100,000 school-related miles and is seven model-years old or a vehicl
19 which has operated 150,000 school-related miles regardless of the age of the vehicle.

20 (d) The Department of Education is authorized to amend its formula to allow the purchase of
21 diesel-powered buses as the minimum standard in those sizes where gasoline-powered buses are no longer
22 available.

23 (e) Except as specified in this Section, or for changes in the price of gasoline, or for th
24 adjustments of those items changed by state or federal laws, the Department of Education shall not
25 change the transportation formula unless the change has been authorized by the General Assembly and
26 an appropriation therefore has been made by the General Assembly.

1 (f) The Department of Education is authorized to amend its formula such that automatic
2 transmission shall be considered standard equipment on contractor and school district bus purchases.

3 (g) The Department of Education is authorized to amend its transportation formula to change the
4 miles-per-gallon allotment for 66/72 passenger diesel buses from 9.1 miles-per-gallon to 6.7 miles-per-
5 gallon.

6 (h) Of the appropriation allocated for public school districts, \$64.0 is allocated to purchase a
7 maximum of eight air conditioned buses to transport special need students. The Department of Education
8 is authorized to amend its formula to allow the purchase of air conditioned buses which may be required
9 to transport special education students that have a medical need for air conditioning (specified by a
10 physician), and that go to a special education school.
