385 on its face to be properly notarized, shall be presumed to have been notarized properly in accordance with the

396 genuine and that the person holds the designated title.

398 conclusively establish the authority of a holder of that title to perform a notarial act.

400 on its face to be properly notarized, shall be presumed to have been notarized properly in accordance with the
401 laws and regulations of the jurisdiction in which the document was notarized.

402 § 4326. Foreign notarial acts.

403 (a) A notarial act has the same effect under the law of this State, as if performed by a notarial officer of this

405 multinational or international organization by any of the following persons:

- 406 (1) A notary public or notary;

411 (c) A certificate by a foreign service or consular officer of the United States stationed in the nation under the
412 jurisdiction of which the notarial act was performed, or a certificate by a foreign service or consular officer of that
413 nation stationed in the United States, conclusively establishes any matter relating to the authenticity or validity of
414 the notarial act set forth in the certificate.

416 signature is genuine and that the person holds the designated title.

417 (e) An official stamp or seal of an officer listed in paragraph (1) or (2) of subsection (a) of this section is
418 prima facie evidence that a person with that title has authority to perform notarial acts.

419 (f) If the title of office and indication of authority to perform notarial acts appears either in a digest of foreign
420 law or in a list customarily used as a source for that information, it conclusively establishes the authority of an
421 officer with that title to perform notarial acts.

422 § 4327. Certificate of notarial acts.

423 (a) A notarial act must be evidenced by a certificate physically or electronically signed and dated by a notarial
424 officer. The certificate must include identification of the jurisdiction in which the notarial act is performed and
425 the title of the office that the notarial officer holds and may include the official stamp or seal of office, or the
426 electronic notary's electronic seal. If the officer is a notary public, the certificate must also indicate the date of
427 expiration, if any, of the commission of office, but omission of that information may subsequently be corrected. If
428 the officer is a commissioned officer on active duty with the military services of the United States, it must also
429 include the officer's rank.

430 (b) A certificate of a notarial act is sufficient if it meets the requirements of subsection (a) of this section and

437 designated notarial act.

438 (5) Near the notary's official signature on the notarial certificate of a paper document, the notary shall
439 affix a sharp, legible, permanent, and photographically reproducible image of the official seal, or, to an electronic
440 document, the notary shall attach an official electronic seal.

441 (c) By executing a certificate of a notarial act, the notarial officer certifies that the officer has made the
442 determinations required by § 4322 of this title.
