DELAWARE STATE SENATE  
144th GENERAL ASSEMBLY

SENATE CONCURRENT RESOLUTION NO. 8

REQUESTING THE GOVERNOR TO PROCLAIM THE MONTH OF MAY AS LYME DISEASE AWARENESS MONTH.

1 WHEREAS, Lyme Disease is a common but frequently misunderstood illness that, if not diagnosed and treated  
2 early, can cause serious and chronic health problems, and

3 WHEREAS, Lyme Disease is a bacterial infection caused by *Borrelia burgdorferi* (Bb), a spiral shaped bacterium  
4 called a spirochete, known to be transmitted in multiple ways, including but not limited to, the bite of an infected tick,  
5 blood transfusions, organ donation, in utero and through a mother's milk

6 WHEREAS, early signs of infection may include a rash and flu like symptoms such as fever, muscle aches,  
7 headaches and fatigue, and

8 WHEREAS, Lyme Disease can be accompanied by other associated tick-borne disease including, but not limited  
9 to, babesiosis, bartonella, ehrlichiosis, and Rocky Mountain Spotted Fever, which are serious co-infections; and

10 WHEREAS, Lyme Disease can be treated with antibiotics if diagnosed early, but the disease often goes  
11 undetected or may be misdiagnosed because it mimics other illnesses; and

12 WHEREAS, untreated Lyme Disease and associated diseases can have devastating consequences on people  
13 infected, such as severe heart, neurological, eye, and joint impairment, since the bacteria can affect many organs and  
14 deregulates the immune system;

15 WHEREAS, Lyme Disease is the fastest growing vector-borne disease in the country; and can be said to be a  
16 silent epidemic

17 WHEREAS, health care agencies and health insurers are often unaware of the long term consequences of Lyme  
18 Disease and the need for continued treatment coverage

19 WHEREAS, actual cases of Lyme Disease are estimated by the federal Centers for Disease Control and Prevention  
20 to be at least ten times higher than reported statistics due to the difficulty of diagnosis

21 WHEREAS, recent data indicates Delaware is first (highest) in per capita cases of Lyme Disease with 76.6 cases  
22 per 100,000 people

23 WHEREAS, a risk assessment study by the United States Army reported that areas in Delaware are high risk for  
24 Lyme Disease

25 WHEREAS, children aged five to nineteen and persons over thirty are most susceptible to tick bites, Lyme  
26 Disease can occur at any age and awareness is an important factor in diagnosis and early treatment

27 WHEREAS, it is May that a new generation of nymphal ticks emerge; therefore it is fitting that the month of May  
28 be declared "Lyme Disease Awareness Month".

29 NOW THEREFORE:

30 BE IT RESOLVED, that the Senate of the 144<sup>th</sup> General Assembly, the House of Representatives concurring  
31 therein, hereby designate May as "LYME DISEASE AWARENESS MONTH", and request that the Governor issue a  
32 proclamation calling upon all State Agencies and the people of the State of Delaware to observe the month of May with  
33 appropriate educational programs, ceremonies, and activities that will emphasize Lyme Disease awareness.

34 BE IT FURTHER RESOLVED, that a suitably prepared copy of this resolution be delivered to the Governor of  
35 the State of Delaware.

#### SYNOPSIS

This Resolution proclaims the month of May as "Lyme Disease Awareness Month", and requests the Governor to issue a proclamation calling upon the people of the State of Delaware to observe the month of May with appropriate educational programs, ceremonies, and activities that will emphasize the severity of Lyme Disease and hopefully the prevention of future victims of this chronic disease.
