1 **JUDICIAL**

2 **Section 24. Court Facilities Improvement Working Group.** Recognizing that there are critical unmet  
3 court space needs statewide, including addressing operational deficiencies of the Family Court facilities in Sussex and  
4 Kent Counties, and other downstate court facilities, as identified in the Southern Court Facilities Space Study (October

6 Judicial Branch, the Office of the Governor, the Office of Management and Budget, including Facilities Management,  
7 and the Office of the Controller General, to develop a plan for implementing flexible, cost-effective and potentially

10 to ensure that litigants have access to high-quality, dignified, and safe courthouses within reasonable proximity to their  
11 residences, and what combination of courthouses will accomplish that goal in the manner most cost-effective to  
12 taxpayers in the long term. For the same reason, the working group will obtain input from other state agencies that  
13 provide services related to litigants in the affected courts, to consider whether the co-location of offices would be  
14 helpful to those receiving services and be more efficient for state taxpayers in the long term.

19 reasonably be addressed in conjunction with the Family Court facility needs. Efficiencies shall be achieved in this  
20 process through the combining of planning, design, architectural and engineering work for both facilities, in all  
21 circumstances where combined efforts are appropriate and will likely achieve cost savings to the overall project.

1 **OFFICE OF MANAGEMENT AND BUDGET**

2 **Section 26. Construction Management.** Notwithstanding any other state law, the Office of Management

5 equipment, including projects that are funded in any Minor Capital Improvement (MCI) and Equipment line, OMB  
6 shall transfer the appropriate funding necessary to purchase the equipment to the agency for which the equipment is  
7 being purchased. The appropriate amount of funding shall be determined and agreed to by OMB and the agency for  
8 which the equipment is being purchased by September 1 of each fiscal year. For those projects for which the  
9 appropriation is passed to an entity and for which the State is not a party to the construction contract, OMB shall  
10 provide technical assistance.

11 (a) Notwithstanding any other state law, there is hereby created an Appeals Board, to be composed of the  
12 Lieutenant Governor, the Director of OMB and the Controller General. The Appeals Board shall approve the use of  
13 all unencumbered monies after that project is deemed substantially complete. A project shall be deemed substantially  
14 complete when the project is occupied by 75 percent of the planned tenants or when deemed complete by the Appeals  
15 Board. One year after a project is deemed substantially complete, any unencumbered authorization balance shall  
16 revert. In no case shall this section empower the Appeals Board to allow for the expenditure of funds for uses other  
17 than for the funds authorized purpose(s). The Controller General shall notify the Co-Chairs of the Joint Legislative  
18 Committee on the Capital Improvement Program of any decisions of the Appeals Board.

19 (b) The use of MCI and Equipment funds in order to ensure completion of a Major Capital Improvement  
20 project involving construction of a new facility is prohibited unless the use of such funds are necessary due to a legal  
21 settlement or emergency or unforeseen conditions as determined by the Director of OMB, the Controller General and  
22 the Co-Chairs of the Joint Legislative Committee on the Capital Improvement Program.

23 (c) A quarterly status report shall be submitted to the Controller General on all incomplete projects.

24 (d) No project's budget should be increased beyond what is appropriated in any Bond and Capital  
25 Improvements Act, either with special funds or private funds, unless the use of those funds is approved by the  
26 appropriate cabinet secretary, the Director of OMB, the Controller General and the Co-Chairs of the Joint Legislative  
27 Committee on the Capital Improvement Program.

1           **Section 27. Craft Training.** OMB may, in its discretion, engage in one public works procurement utilizing  
2 a craft training program. OMB may determine the parameters and processes for any such procurement process and  
3 contract. Should OMB engage in such a public works procurement as set forth herein, upon its completion, OMB shall  
4 report to the Joint Legislative Committee on the Capital Improvement Program with an assessment of said  
5 procurement including, but not limited to, cost-savings, project quality and worker safety.

6           **Section 28. Construction Manager.** It is the intent of the General Assembly that all public works projects,  
7 including all public school projects, that utilize a construction manager on the project, utilize the delivery methodology  
8 which requires the construction manager to secure a performance and payment bond for their portion of the work. All  
9 subcontractors shall be listed at the start of the project and shall provide a performance and payment bond which  
10 names the construction manager and the State of Delaware as additional insureds. All provisions of 29 Del. C. c. 69  
11 are in effect for projects which utilize Construction Manager.

12           **Section 29. Judicial Construction Oversight.** It is the intent of the General Assembly that a nine-member  
13 Executive Committee be created to oversee construction of new or major renovation of judicial facilities. The  
14 Executive Committee shall include two members of the legislature appointed by the Co-Chairs of the Joint Legislative  
15 Committee on the Capital Improvement Program; the respective Chairs of the House and Senate Judiciary  
16 Committees; two members of the Judiciary as appointed by the Chief Justice; and three members of the Executive  
17 Department to include the Director of Facilities Management, the Director of OMB and their designee. The Executive  
18 Committee shall work in conformation with existing construction oversight guidelines as written in ~~Section 32~~ the  
19 Construction Management section of this Act. The Executive Committee is hereby empowered to:

20           (a) Select appropriate professionals necessary to program, site, design, construct, furnish and equip the  
21 facility;

22           (b) Provide such oversight to ensure that the final facility provides optimal security and incorporates  
23 maximum operational efficiencies both within the Judiciary and in conjunction with other criminal justice agencies;

24           (c) Ensure that new construction and/or renovations are completed on schedule; and

25           (d) Ensure that the cost of new construction and/or renovations does not exceed the authorized budget.

26           This section shall apply to the following projects: Kent County Courthouse/O'Brien Building; Sussex  
27 County Family Court; Kent County Family Court; and any Judicial construction or renovation project requested by

1 either the Judicial Branch or recommended by OMB for the Judicial Branch where the total project cost estimate  
2 exceeds \$10,000,000.

3 **Section 30. Minor Capital Improvement and Equipment Supplement - Office of Management and**  
4 **Budget.** Notwithstanding the provisions of any other state law to the contrary, not more than 5 percent of the total  
5 amount allocated to OMB's MCI annual budget may be expended to enter into contractual agreements for project  
6 representatives and associated administrative support to ensure adequate oversight of state construction projects. The  
7 Director of OMB is directed to provide an itemized budget for this amount to the Controller General by August 1 of  
8 each fiscal year and expenditure reports to the Controller General by December 1 and June 1 of each fiscal year.

9 **Section 31. New Castle County Courthouse.** Notwithstanding any law or local government ordinance,  
10 resolution or any deed restrictions to the contrary, the Director of OMB shall designate the name of any state-owned or  
11 state-operated courthouse or other judicial building or facility in New Castle County purchased, constructed or  
12 improved by funds appropriated pursuant to an act of the General Assembly and shall have the sole authority to  
13 approve or disapprove the placement of any statues or memorials in or on the grounds of such courthouse or judicial  
14 building or facility.

15 **Section 32. Card Access Security Systems.** Notwithstanding the provisions of any law to the contrary,  
16 OMB, Department of Safety and Homeland Security (DSHS) and the Department of Technology and Information  
17 (DTI) shall jointly develop and maintain specifications and standards for card access security systems for all state  
18 facilities. Security system communications using state infrastructure will observe enterprise standards and policies as

8 (c) Approved projects remain on the approved project list until completed or discontinued by the Division of

11 discontinued will be identified on the annual report submitted to the Joint Legislative Committee on the Capital

13 (d) In December and May of each year, the Division of Watershed Stewardship shall submit a financial

17 (e) The Division of Watershed Stewardship will submit an annual report to the Joint Legislative Committee  
18 on the Capital Improvement Program at the Resource, Conservation and Development hearing detailing project status  
19 including those projects recommended for discontinuation. The annual report will also include a request for funding  
20 that will identify the total unexpended balance of the fund and the total projected needs of the project estimates to date.  
21 A list of new projects will also be identified and submitted for approval by the Joint Legislative Committee on the  
22 Capital Improvement Program.

23 (f) When a proposed tax ditch project or other water management project traverses county lines, if approved

4 appropriate public advisory council(s) and Secretary, may establish, for activities and services administered by the

6 of each such activity or service. There may be a separate fee charged for each service or activity, but no fee shall be  
7 charged for a purpose not specified in the appropriate chapter of the Delaware Code. At the beginning of each calendar

9 information to the General Assembly. All revenue generated by any of the activities or services performed by the  
10 department shall be deposited in the appropriated special fund account. These funds shall be used to defray the  
11 expenses of the department, but may not exceed the budget authority for any fiscal year. Any fee or fee increase

14 2016, to combat violent crime in high need areas of the City. The City of Wilmington Police Department shall supply  
15 a report to the members of the Joint Legislative Committee on the Capital Improvement Program on the usage of these  
16 funds by October 31, 2016.

1 **DEPARTMENT OF TRANSPORTATION**

12 to fund issuance costs and necessary reserves for the Reserve Account.

13 **Section 91. Maintenance and Operations Facilities.** Building structures and facilities constructed, or to be  
14 constructed, within the Department of Transportation's operating right of way that facilitate maintaining the highway  
15 system and are used to assist in the operational and maintenance activities for all roads, shall not be subject to zoning,

17 may include equipment sheds, crew quarters, equipment maintenance, equipment washing, material storage sheds (i.e.  
18 salt, sand and other bulk materials), fuel centers and other maintenance structures required to maintain the highway  
19 system such as security (cameras and fences) including necessary maintenance and replacement items such as  
20 upgrades to existing facilities. The Department shall not construct any such facility without first conducting a public  
21 workshop to describe such plans and gather public input into the effect of such plans.

22 **Section 92. Grants and Allocations.** ~~The Section 1 Addendum of this Act appropriates the sum of~~  
23 ~~\$21,750,000 (State)~~ makes an appropriation for projects within the Grants and Allocations classification. The General

3 (Federal) from the Transit System classification (97301) appropriated in this Act for the 5310 Program, administered  
4 by the Federal Transit Administration.

5           **Section 94. DelDOT Work Impacts on Private Property and its Owners.** When the Department and/or  
6 any of its contractors determines that it would be in the best interests of the State to undertake  
7 construction/reconstruction work past 9:00 p.m. or before 7:00 a.m., and such work is to be conducted immediately  
8 adjacent to a residential neighborhood:

9           (a) The Department shall first ensure that residents of the neighborhood are notified in a timely fashion of  
10 the Department's desire to undertake such work. It must explain the benefits and costs to the State and the  
11 neighborhood of working under regular hours and the proposed extended hour schedule. Such notifications shall  
12 include a description of the proposed work to be conducted, the proposed use of any equipment that may cause noise,  
13 vibration or odor disruptions to the neighborhood and an estimate of the time required to complete the project. The  
14 Department may proceed with its extended hours of work if it does not receive a significant number of objections from  
15 the notified residents. Pursuant to the provisions of the Delaware Code, it shall offer temporary relocation to any  
16 residents who request such relocation.

17           (b) The Department may proceed with its extended hours of work, so long as jack hammering or other high  
18 noise activities do not impose an excessive nuisance to residents within the designated work zone.

19           (c) If the Department determines that the proposed work (regardless of its scheduled time) will produce  
20 noise that exceeds the applicable noise ordinances of the appropriate jurisdiction, the Department shall ensure that it  
21 seeks and receives a waiver from that jurisdiction before commencing the work.

22           (d) If the Department determines that the proposed work may cause any vibration or other damage to  
23 neighboring property, it shall complete a pre-work survey of the potentially affected properties to determine the base-  
24 line condition of those properties. It shall monitor the properties during construction to ensure that any vibration or  
25 other damage is minimized. If any damage does occur, the Department must reimburse the private property owners  
26 pursuant to the provisions of the Delaware Code. The Secretary of the Department may waive the provisions of this  
27 section if he/she determines that any such work is necessary in order to respond effectively to an emergency caused by  
28 a natural disaster, an accident or a failure of a transportation investment.

1           **Section 95. City of Wilmington Beautification.** In order to maintain the urban tree canopy available in the  
2 City of Wilmington, and those properties that directly abut City limits, the General Assembly authorizes and directs  
3 the Department to establish, and maintain a program of tree maintenance and replacement in cooperation with the  
4 Delaware Center for Horticulture and/or Urban Forestry in the Department of Agriculture. It is the intent of the  
5 General Assembly that such program shall be funded exclusively by allocations made from time to time by members  
6 of the General Assembly from their CTF. The Department shall make payments to the center and/or Urban Forestry in  
7 the Department of Agriculture for work accomplished, and appropriately vouchered, from the CTF funds herein  
8 identified.

9           **Section 96. Supplies of Road Materials.** 74 Del. Laws, c. 308 § 109 is suspended until such time as the  
10 Department of Transportation shall suggest its re-institution and such suspension has been overridden by an Act of the  
11 General Assembly.

12           **Section 97. System Capacity Preservation.** The General Assembly hereby determines that it is in the  
13 public interest to limit future residential, commercial or industrial growth along certain portions of the State's highway  
14 network. Such potential growth would produce unsafe driving conditions as increased traffic seeks access to, and  
15 movements along, a number of local roads and collectors in critical locations through the State. The General  
16 Assembly further determines that it would be infeasible or imprudent for the Department to attempt to design and  
17 construct modifications to the State's highway network adjacent to these locations because such improvements would  
18 irrevocably destroy the important scenic and historic nature of the view sheds and other environmental attributes  
19 associated with these locations. Accordingly, the Secretary of the Department of Transportation (Secretary) is  
20 authorized and directed to use state funds appropriated to the Transportation Enhancements program authorized and  
21 funded in the Section 1 Addendum of 74 Del. Laws, c. 308, together with such other funds from any public or private  
22 source as may be available and appropriate, to purchase land, or such rights in land, as the Secretary deems necessary  
23 to protect the following properties, pursuant to the stipulations stated herein. Expenditures of these funds for these  
24 purposes shall be with the review and approval of the Director of the Office of Management and Budget (OMB) and  
25 Controller General. The provisions of 17 Del. C. c. 1 and 29 Del. C. c. 93 and c. 95 shall govern such purchases, and  
26 any other purchase by the Department authorized by this Act.

27           (a) Millcreek Farm (Yearsley) Property - Four parcels totaling approximately 35 +/- acres adjacent to Mill  
28 Creek (SR 282) and Stoney Batter (SR 283) Roads in New Castle County. The Department shall work with members

1 of the surrounding community, plus state and local officials, to develop a master plan for the permanent protection of  
2 the site as community recreation and education and open space. Notwithstanding 17 Del. C. § 137, the Department of  
3 Transportation, upon completion of plans to reconfigure the intersection of Stony Batter Road and Mill Creek Road, is  
4 authorized to transfer said property to the Red Clay Consolidated School District.

5 **Section 98. Denny Road/Route 896 Alignment Completion.** Upon completion and final inspection of the  
6 Denny Road/Route 896 Realignment Project, the frontage property consisting of two parcels (0.93 and 0.929 acres)  
7 along Route 896, currently landscaped and maintained by the community of Meadow Glen, shall revert back to the  
8 community which had owned said parcels prior to 1994. Notwithstanding the provisions of 17 Del. C. § 137, the  
9 Department shall deed these parcels to the community and remain in their possession in perpetuity.

10 **Section 99. Port of Wilmington.** Subject to the review and approval of the Board of Directors of the  
11 Diamond State Port Corporation (DSPC):

12 (a) DSPC may make application to the Delaware River and Bay Authority for such assistance in the  
13 acquisition and improvement of facilities at the Port as the Board of the DSPC deems appropriate, in accordance with  
14 the Compact authorized under 17 Del. C. § 1701. For purposes of those negotiations, any such project selected by the  
15 DSPC shall be construed to have been approved by the General Assembly and Governor as required by law subject to  
16 the conditions that any such project shall be subject to 29 Del. C. c. 69 and that such projects are subject to the  
17 approval of the Director of OMB, the Controller General and the Co-Chairs of the Joint Legislative Committee on the  
18 Capital Improvement Program.

19 (b) DSPC is authorized to arrange for the lease of equipment from the State's master lease, secured by the  
20 State's full faith and credit, in an amount not to exceed \$5,000,000 in the aggregate. The expenditure of these funds  
21 and the terms of the lease shall be subject to the review and approval of the Board of Directors of DSPC. A report of  
22 equipment leased including terms and amounts due shall be made available to the Secretary of Finance, Director of  
23 OMB and Controller General annually.

24 **Section 100. Wakefield Drive.** The Department shall be prohibited from reopening Wakefield Drive in  
25 Newark through Old Baltimore Pike.

2 or reallocation by the Department under any circumstances.

3 **Section 102. New Development Road Widening.** When planning and/or permitting additional road  
4 widening directly related to new residential development, the Department of Transportation, Division of Planning,  
5 shall make every attempt to require the necessary right-of-way land be acquired from the developer owned land.

6 **Section 103. U.S. 301 Spur Road Segment.** The General Assembly directs the Department to implement  
7 the U.S. 301 Corridor project in phases, beginning with the U.S. 301 mainline section.

8 **Section 104. Astra Zeneca Project.** The Department shall carry out property boundary adjustments and  
9 easements for transit, bicycle and pedestrian, storm water management, wetlands and stream restoration,  
10 beautification, historic preservation, conservation and other improvements in concert with DNREC, Delaware  
11 Economic Development Office, City of Wilmington, New Castle County, New Castle County Conservation District  
12 and such other public and private entities as may be necessary to accomplish timely completion of the Blue Ball  
13 Master Plan.

14 **Section 105. Buck Road.** The Department is requested to refrain from issuing any entrance permit,  
15 authorization or approval for use of any entrance way from New Castle County Tax Parcel Number 07-026.00-094  
16 onto Buck Road, until such time as it also certifies by letter to the New Castle County Department of Land Use that  
17 the developer's proposed entrance design conforms with the Department's subdivision requirements, pursuant to its  
18 authority under 17 Del. C. § 146 and its related regulations, intended to protect public safety and maintain smooth  
19 traffic flow. The government of New Castle County is also requested to solicit comments from and work with the  
20 residents of surrounding communities, community organizations and state and local officials to address traffic safety  
21 and other legitimate land use concerns about the proposed development, after the receipt of the Department's letter.  
22 The design of the entrance on Buck Road for Greenville Center will include a sidewalk from the entrance to the  
23 surrounding Greenville Manor Community on Ardleigh Drive.

24 **Section 106. Routes 141 and 48.** The Department is requested to refrain from issuing any permit,  
25 authorization or approval for use of any new, additional, revised or modified entrances for New Castle County Tax  
26 Parcel Numbers 07-032.20-003, 07-032.20-048 through and including 07-032.20-055, 07-032.20-057 and 07-032.30-  
27 072 onto or from Route 141 or Route 48, until such time as the Department obtains, reviews and comments upon a  
28 traffic operations analysis for the area, which among other elements addresses (1) the predicted levels of service on

1 intersections, roadways or the Tyler McConnell Bridge affected by the proposed development of these parcels, and (2)  
2 the roadway improvements necessary to accommodate the development of these parcels, based upon the exploratory  
3 development plans submitted to the New Castle County Department of Land Use by the developer, as required by the  
4 County's Unified Development Code. To the extent that any submission of proposed development plans is  
5 substantially different than the original exploratory development plans submitted to the County, the Department is  
6 further requested to assess the impact of the new submission's traffic generation upon the local transportation network.  
7 The scope of the assessment shall be at the reasonable discretion of the Department.

8 **Section 107. Red Light Safety Enforcement.** (a) The program shall continue to use recognized safety and  
9 accident criteria in determining whether and where to add any new enforcement locations to this program. Prior to any  
10 new locations, the incumbent state senator and representative for the districts in which such locations are proposed,  
11 shall be notified prior to installation.

12 (b) To assure integrity and propriety, no person involved in the administration or enforcement of this program  
13 shall own any interest or equity in the vendor used by the Department to support the administrative elements of the  
14 program. Any such person with an ownership or equity interest in such vendor must divest from this ownership or  
15 investment no later than 90 days after the effective date of this Act. This restriction applies to anyone with either  
16 direct involvement in administering or enforcing this program and those in any supervisory capacity above such  
17 persons.

18 **Section 108. Craft Training.** The Department is authorized to engage in up to two project procurements  
19 (one in New Castle County and one in Kent County) utilizing the craft training and apprentice program called for in 29  
20 Del. C. § 6962(c), on an experimental basis. Any contractor that performs work in multiple trades on a road  
21 construction project under the craft training experiment will have an apprenticeship in at least one, not all of the trades  
22 on the project to comply with this experiment. Upon the completion of these experiments, the Department shall report  
23 to the Joint Legislative Committee on the Capital Improvement Program with its assessment of the program including,  
24 but not limited to, cost savings, project quality and worker safety.

25 **Section 109. Chestnut Hill Road Parcel.** The provisions of 17 Del. C. § 137 notwithstanding, the  
26 Department is authorized to enter into agreements with other governmental agencies, either directly or in concert with  
27 a private entity, regarding a Department-owned parcel known as NC227, Tax Parcel Number 11-003.30-027, on terms  
28 the Secretary deems appropriate, for purposes of evaluating the costs and benefits of fuel cell technology from

1 environmental and economic development perspectives, which the General Assembly hereby finds is an appropriate  
2 public purpose.

3 **Section 110. Rehabilitation of Public Streets, Industrial Parks.** In order to maintain a safe, attractive and  
4 efficient network of public streets serving the State's growing inventory of industrial parks, 78 Del. Laws c. 76, § 123  
5 authorized the Department to spend sums not exceeding \$2750,000 on a program to address this issue. The  
6 Department shall prepare an inventory of all public streets within the State's industrial parks. It shall further rank all  
7 of these streets in the same manner that it prepares the annual program of roads eligible for the Paving and  
8 Rehabilitation Program authorized elsewhere in this Act. The Secretary shall then distribute this list to all members of  
9 the General Assembly, together with an estimate of the amounts necessary to address those public streets in this  
10 inventory most in need of repair. If a member of the General Assembly elects to allocate funds from his/her CTF to  
11 repair any of these public streets, the Secretary may draw on this appropriation to match those individual CTF dollars  
12 on the basis of ~~one~~ three dollar from this special account for every one dollar allocated by the member. The Secretary  
13 shall notify all members of his intent to make such matching allocations, and shall require any member interested in  
14 participating to notify the Department of his/her interest within 30 days from the date of such announcement. In the  
15 event that the sum of all individual member requests exceeds the amounts authorized by this section, the Department  
16 shall prioritize the industrial park streets to be improved on the basis of the ranking required by this section, and shall  
17 share its decisions with all members of the General Assembly. For purposes of preparing this inventory and ranking,  
18 the Department is authorized and directed to expend such sums as may be necessary from the accounts established for  
19 statewide paving and rehabilitation activities. For purposes of eligibility, the industrial park public streets shall be  
20 limited to those streets which meet department standards and are currently maintained by the Department.

21 **Section 111. Community Transportation Fund.** The Department will provide an annual financial report  
22 regarding projects funded through CTF and will report to the Co-Chairs of the Joint Legislative Committee on the  
23 Capital Improvement Program by June 30 of each fiscal year.

24 **Section 112. Weldin House.** WHEREAS, the State of Delaware, acting through the Department of  
25 Transportation (hereinafter referred to as the "Grantee" or "DelDOT") entered into an Permanent Conservation  
26 Easement Agreement with Sycamore Development Group, LLC (hereinafter referred to as "Grantor") on December  
27 22, 2005. This Permanent Conservation Easement Agreement (hereinafter referred to as the "Agreement") between the  
28 Grantee and the Grantor was for the fee simple conveyance of a parcel of land in New Castle County of the State of

1 Delaware, identified as Tax Parcel Number 06-139.00-158. This parcel includes a building known as the Jacob Weldin  
2 House, which is a historic landmark in a condition of disrepair and in need of significant restoration. Due to the  
3 historic value of the parcel and the need for the building on the lot to be restored, title was conveyed to Grantor which  
4 included a multitude of limitations and conditions that would be imposed upon the Grantor, including a Permanent  
5 Conservation Easement Agreement that required Grantor to perform many delineated actions. It is noteworthy that the  
6 Agreement required the Grantor to preserve and protect the conservation values of the property and to complete the  
7 restoration and rehabilitation and renovation of the Jacob Weldin House in a timely manner. This Agreement expressly  
8 allowed DeIDOT, as the Grantee of this parcel, to be able to take actions against the Grantor to enforce the Agreement  
9 if a factual situation arose that would require such actions. DeIDOT is the only entity that is authorized pursuant to the  
10 terms of this Agreement, after certain notice provisions are accomplished to bring an action at law or in equity in a  
11 court to enforce the terms of the Agreement and to obtain temporary or permanent injunctions to require the  
12 restoration of the Jacob Weldin House to its prior condition.

13 It is clear to anyone who looks upon the Jacob Weldin House, that almost no rehabilitation work has been  
14 performed on the Jacob Weldin House, and that the Grantor has failed to meet its obligations as required by the  
15 Agreement. As DeIDOT is the only entity that has standing to enforce the Agreement against Grantor, the General  
16 Assembly hereby requests DeIDOT to immediately and timely take actions to enforce the Agreement against the  
17 Grantor. DeIDOT is further requested to continue its on-going efforts to timely address the Grantor's requirement to  
18 abide by the terms of the Agreement until Grantor has either fully fulfilled its obligation or until a court of law or  
19 equity has ordered that the title to the Jacob Weldin House be returned to Grantee, due to the actions of the Grantor.

20 **Section 113. Route 1 Widening.** The Department is encouraged to consider all feasible and prudent options  
21 with respect to access issues for the proposed widening of State Route 1 between State Route 273 and the Senator  
22 William V. Roth Bridge, including but not limited to the provision of new ramps in the vicinity of Newtown Road.

23 **Section 114. Community Transportation Fund.** The Department shall continue to allow the funding of  
24 state historical markers through the CTF. Said CTF-funded markers shall be placed either within the right-of-way, or  
25 as close thereto as safety conditions will permit and shall be positioned to be as visible as possible from the roadway  
26 consistent with applicable highway safety standards. State historical markers, regardless of placement, shall be exempt  
27 from all county or local signage regulations, ordinances, fees or licenses. Existing historical markers shall be brought  
28 into compliance with current standards only as they require replacement, in which case CTF funding may be used for

1 said replacement and, if necessary, repositioning consistent with current safety standards. If a marker must be  
2 relocated or replaced as the result of a transportation road project, the cost of said relocation or replacement, as well as  
3 the cost of upgrading of the marker to current safety standards shall be borne by the Department as an expense of the  
4 project.

5 **Section 115. Research Programs.** ~~The~~ Section 1 Addendum of this Act ~~appropriates~~ makes various  
6 appropriations to the Department.

7 (a) Of this amount, the Department shall fund a minimum amount of \$250,000 for the purposes of funding  
8 research programs.

9 (b) Of this amount, \$62,500 shall be used for infrastructure research and forums through the University of  
10 Delaware, Institute for Public Administration. An additional \$50,000 shall be allocated for the purposes set forth in  
11 this section to be funded from eligible federal funds. These activities funded by this appropriation shall be approved by  
12 the Secretary.

13 **Section 116. Private Easements.** (a) The General Assembly finds as follows:

- 14 1. Many Department projects require the relocation of utility lines, both above and below ground, to  
15 accommodate the expansion or relocation of pavement and preserve the ability of utility companies to  
16 access their facilities without undue disruption to the State's transportation network.
- 17 2. While many utility lines are located within existing rights-of-way, and an acceptable legal framework is  
18 in place for such relocations, the transmission lines for public electric and/or gas utilities, regulated under  
19 26 Del. C., are often located on adjacent private easements obtained by such utilities.
- 20 3. The relocation of such transmission lines from such easements complicates and delays the Department's  
21 projects, due to the utility company's need to maintain a chain of private perpetual easements for  
22 transmission lines under their financing schemes, and the difficulty of arranging for the shutdown of such  
23 facilities on a schedule that also meets the Department's requirements for its projects. These difficulties  
24 are not capable of being addressed in any practical way by reference to these company's own powers of  
25 eminent domain under 26 Del. C., due to the inability to coordinate both sets of property acquisitions for  
26 the Department and the utilities.
- 27 4. To address this situation effectively, the Department should be granted the authority to acquire all  
28 property rights needed for coordinated use by both the Department and the public utilities when

1 conditions warrant, followed by the disposition of such portions of land needed for the continuation of  
2 the private easements adjacent to the expanded state rights-of-way.

3 (b) Notwithstanding any other provision of the Delaware Code to the contrary, the Department is authorized  
4 to acquire property rights, including but not limited to the exercise of eminent domain powers under 17 Del. C. § 137,  
5 to include the acquisition of necessary real property rights needed for the relocation of public utilities impacted by a  
6 Department project, when such utilities own adjacent private easements for the perpetual use of their transmission  
7 lines. After having obtained all property rights for its project and the relocation of such transmission lines, the  
8 Department is authorized to dispose of such portions of the property it acquires as needed for the continuation of the  
9 private utility transmission easements held by the public utilities. To the extent feasible and practical, the disposition  
10 shall be a like kind exchange of necessary rights to maintain a chain of private perpetual easements and may include  
11 additional rights for which the party receiving the additional rights shall compensate the granting party accordingly.  
12 Any such like kind exchange and compensation agreement may be on terms acceptable to the utility and the  
13 Department. In the absence of such agreement, any condemnation actions exercising this authority shall be processed  
14 in accordance with the procedures set forth in 10 Del. C. c. 61.

15 (c) The Department shall only use this provision for the following projects:

- 16 1. West Dover Connector
- 17 2. Bridge 1 - 159 on James Street over Christina River
- 18 3. Plantations and Cedar Grove Road
- 19 4. U.S. 9 Intersection at Sweet Briar Road
- 20 5. U.S. 9 Intersection at Fisher Road

21 **Section 117. EdgeMoor Gas Supply.** (a) The General Assembly notes the State of Delaware's continuing  
22 support for the EdgeMoor Plant and its longstanding, significant contribution to Delaware's economy in the form of  
23 employment and production of products, including the manufacture of titanium dioxide (a pigment used in many  
24 applications including paint), and the continued and necessary supply of oxygen and nitrogen gases needed for the  
25 production process at the EdgeMoor Plant. The General Assembly further acknowledges that the private utility  
26 facilities, owned by Linde LLC and installed in 1963 under permit by the then-Delaware Highway Department, which  
27 supplies the EdgeMoor Plant with such gases, face unique access and operational issues impacting the continued  
28 accommodation of their pipelines within the Governor Printz Boulevard right-of-way, putting continued production at

1 and the several hundred jobs associated with the EdgeMoor Plant in question. Under 26 Del. C. c. 13, utility  
2 corporations regulated by the Public Service Commission are entitled to the free, regulated use of the State's rights-of-  
3 way for the placement of gas, water, wastewater, and oil transmission pipelines. However, independent providers who  
4 are not so regulated may not use these rights-of-way for the longitudinal placement of their facilities or transmission  
5 lines or similar underground conduits. These entities may only enter into use and occupancy agreements to cross such  
6 rights-of-way. The General Assembly notes that such independent providers are often unable to make any reasonable  
7 private arrangement for locating their facilities on private easements or arrangement for location on public lands,  
8 unless a specific exception is created for this limited purpose within the State's rights-of-way.

9 (b) Notwithstanding any other provision of Delaware law, regulation, rule, or policy to the contrary, for as  
10 long as the EdgeMoor Plant continues to engage in manufacturing operations requiring the supply from the in-place  
11 oxygen and nitrogen pipelines, the Department is authorized to contract for the use of the State's rights-of-way with  
12 Linde LLC, a private independent purveyor of industrial gases to the EdgeMoor Plant, or its successors or assigns,  
13 subject at all times to the following terms and conditions:

- 14 (i) provisions for review and approval by the Department of the location and placement of all such  
15 privately owned facilities in the State's rights-of-way, including but not limited to assuring compliance  
16 with the Department's Utility Manual Regulation and the Underground Utility Damage Prevention and  
17 Safety Act (26 Del. C. c. 8);
- 18 (ii) provisions to reflect the fact that all other necessary approvals and agreements for such purposes have  
19 been or will be obtained from the appropriate State agencies, as well as any relevant municipality or  
20 other political subdivision of the State;
- 21 (iii) provisions for an appropriate initial length of time for which the State's right-of-way will be used for  
22 this purpose, similar to the franchise agreements the Department enters into with public utility  
23 corporations, including any renewal terms thereof;
- 24 (iv) provisions to address the cost of future relocations of such privately owned facilities, if the right-of-  
25 way is required for roadway purposes or by a public utility to be reconstructed, widened, or altered  
26 during the term of the contract if efforts to find a reasonable and industry accepted alternative that does  
27 not involve a relocation of the privately owned facilities cannot be found;

1 (v) provisions as needed to accommodate the New Castle County Sewer Interceptor project including (A)  
2 provisions for the relocation of such privately owned facilities, within the State’s rights-of-way, if  
3 efforts to find a reasonable and industry accepted alternative that does not involve a relocation of the  
4 privately owned facilities cannot be found and (B) provisions for the prompt determination of a  
5 reasonable and industry accepted alternative, including cost allocation and liability acknowledgement,  
6 through an agreement between New Castle County and Linde LLC that is acceptable to the  
7 Department of Transportation;

8 (vi) provisions for bonding or other acceptable forms of security for the eventual removal of such  
9 facilities; (vii) provisions for the conversion of the contract to a standard franchise agreement with a  
10 utility corporation regulated by the Public Service Commission, if these privately owned facilities are  
11 ever acquired by such entity; and

12 (viii) provisions for compensating the State for the use of these rights-of-way, based on a fair market value  
13 assessment. This compensation shall be calculated and expressed as a property lease payment. Any  
14 such payments shall be deposited to the credit of the Transportation Trust Fund created in 2 Del. C.

15 **Section 118. Construction Manager/General Contractor Pilot.** The U.S. Department of Transportation is  
16 encouraging states to explore procurement alternatives for transportation project delivery, through its Every Day  
17 Counts Initiative, aimed at shortening the time frame required for project completion and reducing overall project  
18 costs, while still providing quality assurance for the results. Therefore, the Department is hereby authorized to utilize  
19 Construction Manager/General Contractor (“CM/GC”) procurement mechanisms, for up to six transportation  
20 construction projects. “Construction Manager/General Contractor” is a project delivery method under which an owner  
21 selects a General Contractor to provide consultation during the design of the project. After the project design is  
22 completed, the General Contractor may submit a bid to perform the construction work. The owner evaluates the bid  
23 and may decide to award the construction contract to the General Contractor, or advertise the construction contract to  
24 be bid. CM/GC entities may be a single firm, a consortium, a joint venture, or a combination of entities. The use of  
25 these experimental procurement approaches is further subject to the following conditions:

26 (a) The construction contract terms shall include provisions to pay prevailing wage rates as provided in 29 Del.  
27 C. § 6960, or the applicable Federal prevailing wage rate, whichever is higher.

1 (b) The following additional provisions of 29 Del. C. c. 69 shall also be incorporated into these contracts: (1) §  
2 6962(d)(4)a. (anti-pollution, conservation environmental measures); (2) § 6962(d)(7) (equal employment opportunity  
3 assurances); and (3) § 6962(d)(8) (performance bonding requirements).

4 (c) Any such contracts shall conform to all applicable Federal laws and regulations concerning CM/GC  
5 contracting, without regard to the source of funds.

6 (d) Any such contracts shall also be subject to the provisions of 17 Del. C. c. 8 (construction payments held in  
7 trust for protection of subcontractors and suppliers).

8 (e) All other provisions of 29 Del. C. c. 69 shall not be applicable to these projects, except as referenced in this  
9 section.

10 (f) The Co-Chairs of the Joint Legislative Committee on the Capital Improvement Program and the Director of  
11 OMB shall approve all projects subject to this section.

12 **Section 119. Collector-Distributor Road/Modification to Scarborough Road Interchange.** The  
13 Department is hereby directed to take such actions and enter into such contracts as it deems necessary and appropriate  
14 for the evaluation and assessment of a possible Collector-Distributor Road modification to the Scarborough Road  
15 Interchange (the “C-D Road”), including but not limited to (1) a feasibility study designed to evaluate and assess  
16 viability and implications of the C-D Road, (2) a toll study designed to ascertain the volume of traffic likely to utilize  
17 the C-D Road and the prospects for generating toll revenues therefrom, and (3) a wetlands delineation to determine  
18 whether or not any wetlands mitigation may be required in order to construct the C-D Road; provided, however, that  
19 (a) the owner of the property occupied by The Dover Mall (the “Developer”) shall pay all of the costs to conduct the  
20 aforesaid study, not to exceed \$250,000; (b) the Department shall conduct the feasibility study in consultation with the  
21 Developer; and (c) upon completion of the aforesaid feasibility study, the Department shall report back to the Joint  
22 Legislative Committee on the Capital Improvements Program regarding the feasibility of the C-D Road, before the  
23 Department undertakes commencement of the aforesaid toll study and wetlands delineation.

24 **Section 120. Delaware City Fire Company.** Notwithstanding the provisions of 29 Del. C. 29 to the  
25 contrary, the Delaware Department of Transportation is hereby authorized to use Community Transportation Funds for  
26 a one-time reimbursement to the Delaware City Fire Company in the amount of \$20,000.00 for a landscape  
27 improvements project.

1           **Section 121. Town of Laurel Police Department.** Notwithstanding the provisions of 29 Del. C. 29 to the  
2 contrary, the Delaware Department of Transportation is hereby authorized to use Community Transportation Funds for  
3 a one-time reimbursement to the Town of Laurel Police Department in the amount of \$11,000.00 for a Side by Side  
4 Utility Vehicle.

5           **Section 122. Beau Tree Lane.** As it has been dedicated for public use by the residents, the section of Beau

8 17 Del. C. § 521(a)(6) requiring that a street be accepted for perpetual maintenance by the Department to qualify for  
9 the Snow Removal Reimbursement Program. The residents of the Delaware section of Beau Tree Lane must comply  
10 with all other requirements of the Snow Removal Reimbursement Program as codified in 17 Del. C. § 521.

11           **Section 123. Community Transportation Fund and Municipal Street Aid.** The requirements set forth in  
12 29 Del. C. § 6960 shall not apply to public works projects of the Department of Transportation if the only source of

26 provide, by regulation or ordinance, for the establishment of a program imposing monetary liability on the  
27 owner of a motor vehicle for failure to comply with traffic light signals in accordance with the provisions of  
28 this subsection. This subsection allows the Department of Transportation and/or the governing body of any

1 city or county to install and operate traffic light signal violation monitoring systems; provided however, that  
2 in the event the installation other than by the Department of Transportation ~~on state maintained streets or~~  
3 ~~roads~~, the Department of Transportation must first approve such installation using the same recognized safety  
4 and accident criteria which the Department of Transportation uses to determine new locations; and provided  
5 further that the duration of the yellow light change interval, at any intersection where a traffic control  
6 photographic system or other traffic light signal violation monitoring system is in use, must be no less than  
7 the yellow light change interval duration specified in the design manual developed by the Department of  
8 Transportation. All existing locations erected without the Department of Transportation prior approvals shall  
9 be reviewed by the Department of Transportation using same recognized safety and accident criteria used to  
10 authorize new locations. Any location which fails to meet the criteria shall be removed upon end of the  
11 contract with the camera operator vendor.

12 (2) Jurisdictions operating an Electronic Red Light Safety Program can only issue right turn on red

17           (b) The district is required to maintain the fencing between Dickinson High School and the community of  
18 Montclare, keep the gate between the properties locked at all times (except by mutual agreement between the district  
19 and the Montclare Civic Association), and provide, maintain and replace, if necessary, the Leland Cypress trees along  
20 the fence line bordering the homes on Salem Drive.

21           **Section 139. School Construction Fund Transfers.** Notwithstanding any law or other provision to the  
22 contrary, the Department, with the approval of the Director of the Office of Management and Budget (OMB) and  
23 Controller General, may transfer funding between major capital construction projects within the respective school  
24 districts. These transfers shall not authorize any changes in conditions or incur any obligations in excess of the  
25 approved Certificate(s) of Necessity.

26           **Section 140. School District Financial Reviews.** It is the intent of the General Assembly that, for school  
27 districts receiving funds appropriated in the Section 1 Addendum of this Act, should a school district financial position  
28 report as required under 14 Del. C. § 1507 demonstrate less than one month of carryover, or if at any time during the  
29 course of the fiscal year a school district is projected to not be able to satisfy its local payroll obligations, the Director

1 of OMB, in coordination with the Secretary of Education and Controller General, is authorized to conduct a  
2 comprehensive review of the school district's capital construction program.

3 **Section 141. School Construction Contractual Documents.** Effective January 1, 2007, all school districts  
4 that receive state funds for major capital construction projects shall use standard bid and contract documents  
5 developed by OMB, Facilities Management. School districts may enhance the standard bid and contract documents

8 Management, shall approve any modifications or changes to the provisions of the standard bid and contract  
9 documents before a school district may use or enhance the modified documents.

10 **Section 142. Milford School District - Access Road.** To ensure that property owned by the Milford School  
11 District is used in accordance with the priorities established by the Milford School District Board of Education, no  
12 state agency or municipality shall use said district property for any type of additional access road without the approval  
13 of the Milford School District Board of Education. If the Milford School District Board of Education does not  
14 publicly endorse, by affirmative vote, the placement of an additional access road on district property, no state agency  
15 or municipality shall be authorized to condemn such district property for said use.

16 **Section 143. Brandywine School District Conveyances.** The General Assembly hereby determines that it  
17 is in the public interest to reclaim a portion of the 26.25 acre parcel of land at 3301 Green Street, Claymont, DE 19703  
18 (New Castle County Tax Parcel ID Number 06-071.00-106) held by the Brandywine School District in order for the  
19 State of Delaware to convey to the Brandywine Community Resource Council, Inc. (BCRC), a not for profit  
20 corporation of the State of Delaware that operates the Claymont Community Center, a portion of said parcel (the CCC  
21 Parcel). The General Assembly also hereby determines that it is in the public interest to reclaim the 0.38 acre parcel,  
22 also at 3301 Green Street, Claymont, DE 19703 (New Castle County Tax Parcel ID Number 06-084.00-009) (the  
23 Second CCC Parcel), in order for the State of Delaware to convey such parcel to BCRC. BCRC provides vital  
24 services to the citizens of Delaware and occupies the CCC Parcel and the Second CCC Parcel exclusively. The  
25 General Assembly recognizes that as a titled owner of the CCC Parcel and the Second CCC Parcel, BCRC will be  
26 better able to serve the citizens of Delaware and be better positioned to receive grants, including facilities  
27 improvement grants.

1 Brandywine School District is hereby authorized and directed to convey the CCC Parcel and the Second CCC  
2 Parcel to BCRC for the combined consideration of one dollar. The deed to the aforesaid real property shall contain a  
3 provision whereby the Brandywine School District shall have the right of first refusal to the property in the event that  
4 the BCRC wishes to vacate the property. If the BCRC vacates the property and the Brandywine School District does  
5 not exercise its right of first refusal, proceeds from the sale of said property shall be governed by the provisions 14  
6 Del. C. § 1057(a)(15).

7 These conveyances shall be "as is" in that BCRC shall accept any buildings erected on the parcels in their  
8 present condition as of the time of conveyance, and shall be subject to all other covenants, conditions, restrictions and  
9 easements of record, this reference to which shall not be construed to reimpose the same. The Brandywine School  
10 District and BCRC shall also negotiate in good faith to agree on mutually acceptable easements and agreements to  
11 address issues including cross access, maintenance, and shared use of property that BCRC and Brandywine School  
12 District deem necessary or appropriate.

13 **Section 144. Claymont Community Center.** In connection with the transfer of property directed pursuant  
14 to 77 Del. Laws, c. 329, § 135(b), the Brandywine Community Resource Council, Inc. (BCRC) shall be liable for the  
15 payment of survey(s) and/or related transaction costs necessary to determine whether any portion of the land that was  
16 conveyed pursuant to the above authority are portions of land originally acquired by the Department of Transportation  
17 (DOT) for right-of-way purposes for the construction of Interstate 95. To the extent any survey confirms that any  
18 portion of such lands are, in fact, owned by the DOT, and notwithstanding any provisions of 17 Del. C. § 137 to the  
19 contrary, the DOT, after receiving any and all necessary approvals from the federal government or any agent thereof  
20 for transfer of such land, is further authorized to execute any and all necessary deeds to convey said portions of land to  
21 the BCRC and/or the Brandywine School District on the same terms and conditions as the Brandywine School  
22 District's related conveyance to the BCRC pursuant to the above authority.
