3 space needs statewide, including addressing operational deficiencies of the Family Court facilities in Sussex and Kent
4 Counties, and other downstate court facilities, as identified in the Southern Court Facilities Space Study (October 31,

18 neighborhood:

19 (a) The Department shall first ensure that residents of the neighborhood are notified in a timely fashion of the

2 that exceeds the applicable noise ordinances of the appropriate jurisdiction, the Department shall ensure that it seeks and
3 receives a waiver from that jurisdiction before commencing the work.

4 (d) If the Department determines that the proposed work may cause any vibration or other damage to
5 neighboring property, it shall complete a pre-work survey of the potentially affected properties to determine the base-line
6 condition of those properties. It shall monitor the properties during construction to ensure that any vibration or other
7 damage is minimized. If any damage does occur, the Department must reimburse the private property owners pursuant to
8 the provisions of the Delaware Code. The Secretary of the Department (Secretary) may waive the provisions of this

11 **Section 96. City of Wilmington Beautification.** In order to maintain the urban tree canopy available in the
12 City of Wilmington, and those properties that directly abut City limits, the General Assembly authorizes and directs the

Section 101. Buck Road. The Department is requested to refrain from issuing any entrance permit, authorization or approval for use of any entrance way from New Castle County Tax Parcel Number 07-026.00-094 onto Buck Road, until such time as it also certifies by letter to the New Castle County Department of Land Use that the developer's proposed entrance design conforms with the Department's subdivision requirements, pursuant to its authority under 17 Del. C. § 146 and its related regulations, intended to protect public safety and maintain smooth traffic flow. The government of New Castle County is also requested to solicit comments from and work with the residents of surrounding communities, community organizations, and state and local officials to address traffic safety and other legitimate land use concerns about the proposed development, after the receipt of the Department's letter. The design of the entrance on Buck Road for Greenville Center will include a sidewalk from the entrance to the surrounding Greenville Manor Community on Ardleigh Drive.

To the extent that any submission of proposed development plans is substantially different than the original exploratory development plans submitted to the County, the Department is further requested to assess the impact of the new submission's traffic generation upon the local transportation network. The scope of the assessment shall be at the reasonable discretion of the Department.

Section 103. Red Light Safety Enforcement. 11 address this issue. The Department shall prepare an inventory of all public streets within the State's industrial parks. It
12 shall further rank all of these streets in the same manner that it prepares the annual program of roads eligible for the
13 Paving and Rehabilitation Program authorized elsewhere in this Act. The Secretary shall then distribute this list to all
14 members of the General Assembly, together with an estimate of the amounts necessary to address those public streets in
15 this inventory most in need of repair. If a member of the General Assembly elects to allocate funds from their CTF to
16 repair any of these public streets, the Secretary may draw on this appropriation to match those individual CTF dollars on
17 the basis of three dollars from this special account for every one dollar allocated by the member. The Secretary shall
18 notify all members of their intent to make such matching allocations and shall require any member interested in
19 participating to notify the Department of their interest within 30 days from the date of such announcement. In the event
20 that the sum of all individual member requests exceeds the amounts authorized by this section, the Department shall
21 prioritize the industrial park streets to be improved on the basis of the ranking required by this section, and shall share its
22 decisions with all members of the General Assembly. For purposes of preparing this inventory and ranking, the
23 Department is authorized and directed to expend such sums as may be necessary from the accounts established for

7 with applicable highway safety standards. State historical markers, regardless of placement, shall be exempt from all
8 county or local signage regulations, ordinances, fees or licenses. Existing historical markers shall be brought into
9 compliance with current standards only as they require replacement, in which case CTF funding may be used for said
10 replacement and, if necessary, repositioning consistent with current safety standards. If a marker must be relocated or
11 replaced as the result of a transportation road project, the cost of said relocation or replacement, as well as the cost of
