To: Gray, Ronald (LegHall) <Ronald.Gray@state.de.us>;

Ron,

As you are aware, Seaford has already passed RTW and support any efforts to improve our opportunity to grow and attract new business to Seaford, Sussex County, and to our State. The people of Seaford are demanding action and rightfully so. They remember better times. They know what impact good jobs has on our community, schools, and other local businesses.

The weakest argument may be the strongest and that is what do we have to lose? No State that has ever voted this into place has returned to what they were before - why? The #s tell it all - the tide rises all and everyone benefits.

Seaford is excited about the possibilities and hope this brings to the people to Seaford. I wish you the very best and offer our full support in this effort.

David Genshaw

Mayor

Seaford
