AGENDA

Non-Legislation

Energy Reliability Discussion with PJM

Comments

A joint meeting of the Senate Energy, Environment, and Transportation Committee and the House Natural Resources and Energy Committee to hear a presentation on reliability. **No bills will be heard at this meeting.**

The purpose of the committee meeting is to level-set an understanding of where we are today, in Delaware, with electric supply, electric reliability, and our statewide energy policy.

We will hear presentations from PJM, the Delaware State Energy Office, the Delaware Sustainable Energy Utility, and Reliability First, an organization operating under the Federal Energy Regulatory Commission (FERC).

All interested state, county, and municipal elected officials across the state are invited to join the discussion and ask questions.
